

Quality of life since 1825

Furniture 2024-25

To the most important room in the home

A room for enjoyment

The bathroom has become one of the most important rooms in the home. It needs to be functional and practical for the entire family, and it has to have plenty of storage space. At the same time, however, it must also be accommodating – a delightful space for care, consideration and recovery. A place where you want to take your time.

A bathroom that meets all these requirements while resisting the effects of heat, moisture and water, makes high demands on its furnishings. Gustavsberg has been manufacturing porcelain goods since 1825 and sanitary products for the bathroom since 1939.

So you can feel confident that our products maintain a high level of quality, meet tough demands regarding sustainability and are backed by spare parts and supplementary products that will be available for years to come.

Which colour are you?

Grey and white are the most common colours in the bathroom, but the Artic and Graphic furniture units are available in other colours, too. You can't go wrong with grey and white; they stand the test of time and can easily be combined with replaceable products. But as you can see, our modern, fresh and carefully selected furniture colours also have a timeless slant. We want you to enjoy your new bathroom for many, many years to come.

"The bathroom is the watering hole, the place where the animals gather each morning and evening to drink"

Daniel Heckscher
architectural designer

According to Swedish architectural designer Daniel Heckscher, bathrooms are the most complex room in the home when it comes to materials and shapes. "It's one big mix of hard and cold materials – that come into contact with something soft," he says.

THINKING BIG ON A SMALL SURFACE

Guest toilets tend to be rooms where we don't have too much space to play with. They don't have to be water-proofed like a wet room, and we can

use expressive materials, with paint or wallpaper and also with the floor.

DANIEL'S FAVOURITE COLOUR

"Pink is one of my favourite colours, bar none. It provides a very wide and inviting spectrum to work with, as yellow-pink slowly matures and slides into apricot, bright pink, right across the spectrum to burgundy, heavy autumn leaves and russet terracotta. The body should be able to relax in the bathroom, with no stress about brushing your teeth or whatever else you

are doing, so I think pink, or peach, is a wonderful option." You can find more of Daniel's tips on materials, shapes and – most importantly – colour at gustavsberg.com.

and Konstfack,
Stockholm.

Artic

Artic makes it easy to furnish the entire bathroom with a consistent design and feeling. Artic furniture is made in Finland using local materials and generating the least possible environmental impact. The result is a smart series of bathroom furniture with a little more Finnish "sisu" (inner strength) than the average ...

WALL CABINET

Wall cabinets create a fully furnished feeling. You can display trinkets on top and conceal storage compartments behind the doors. Add in a pair of support legs to underline the furnished look even more.

FULL-COVERING WASHBASINS

The washbasins for Artic washstands extend slightly beyond the underlying furniture unit, and the slim, tight profile makes it look like the porcelain is resting weightlessly on the stand. The counter top washbasins are available in glossy white, matt white or matt black glaze.

MIRROR CABINET

There is an integrated electrical socket inside the Artic mirror cabinet. Other smart details include a practical knick-knack magnet and a magnifying mirror. The lighting rail above the cabinet provides effective yet soft lighting. The lighting beneath the cabinet generates ambience and a sense of well-being morning, noon and night. The frosted bottom edge of the mirror neatly conceals fingerprints.

TALL CABINET

Tall cabinets allow you to make full use of the height of your bathroom. And with this depth, you have even more space for storage, without cutting back on floor space – or the sense of well-being.

STRIPPED DOWN DESIGN

The Artic cabinet frame features a straight, stripped-down look that raises the stylishly recessed drawers and doors to the level of authentic design elements. A consistent colour in the cabinet frame, doors and drawer fronts imbues the bathroom with a uniform colour spectrum. All surfaces are resistant to wear, tear and humid environments.

Artic colours

No matter which shade you choose for your furniture, the cabinet frame, doors and drawer fronts are all available in the same colour, creating a bathroom in a consistent colour spectrum.

Peach is more obvious, creating bathrooms with personality and warmth.

Black ash veneer is both a colour and an emotion. The structure of the wood delights the fingertips and changes expression depending on how the light strikes it, bringing each furniture unit to life.

Ash grey blends seamlessly into most settings, generating a sense of timeless elegance and quality.

White is a classic bathroom colour, a safe choice that matches most settings.

Black + white! The washbasin for the Artic washstand is available with sober matt white, classic glossy white or in dramatic matte black glaze. All three are possible to combine with the color you want on your Artic furniture.

STORE VERTICALLY
The tall cabinet is available in two different measurements to suit precisely your bathroom and your storage requirements. The insides of the doors feature smart shelves which make it easier to access bottles, jars and the like. The larger model of the tall cabinet has fully 257 litres of capacity, while the smaller model offers 158 litres of space. That's a whole lot of toilet paper ...

ELECTRICAL SOCKET INSIDE THE MIRROR CABINET
The discreet electrical socket is protected from moisture – but located just where you need it the most.

MAGNIFYING MIRROR
Any self-respecting bathroom cabinet needs a magnifying mirror. You can place this one wherever it will be most useful. And the knick-knack magnet keeps the "good to have" things close at hand.

FORM IS FUNCTION
The frosted edging spirits away fingerprints. The lighting below the mirror cabinet ramps up the ambience.

Artic Peach

Artic
Black ash veneer

GENEROUS BASINS

The washbasin bowl has been designed to catch splashes when you use it, and extends a little way outside the furniture units to keep them from getting wet. The overflow drain has also been rendered "invisible", simply by positioning it on the user's side.

SMART BOTTOM VALVE

The Easy Clean bottom valve makes thorough cleaning and good hygiene simple. Supplied as standard with a chrome plug. However, a matt black plug - to match the matt black washbasin - is available as an optional extra.

BLACK + WHITE!

A classic color combination in the interior design world. With black and white you create exciting contrasts in your bathroom. Furniture and washbasins in white and black are included in this brochure. On our website you will find many more products in black or white, such as toilets, showers, faucets, bathtubs, and bathroom accessories. Welcome to visit gustavsberg.com

NO MORNING WAIT
Two mixers fitted side by side in a 1000 or 1200 mm washbasin cut waiting times to brush teeth in the morning.

LIGHT

The interior of all drawers can be fitted with sensor-controlled lighting. This can also be fitted under the furniture units themselves for an attractive lighting solution in the bathroom.

LEG FRAME

The furniture units can be fitted with a leg frame in a matching, cultured design. The effect is intimate, adding a more furnished feeling to the bathroom. Choose between black and white. The leg frame is primarily a design element and to secure the water and drain connections, the bathroom furniture units are always fastened to the walls.

Artic
Ash grey

Artic White

◀ STORE VERTICALLY

The tall cabinet is available in two different widths and two different depths to suit precisely your bathroom and your storage requirements. The insides of the doors feature smart shelves which make it easier to access bottles, jars and the like.

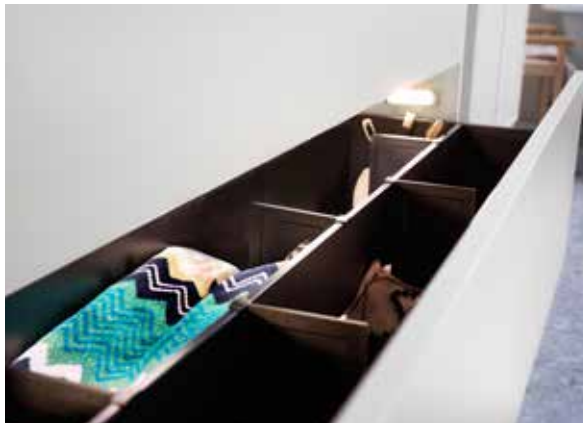

THE BEUTIFUL ON DISPLAY

The wall cabinets present plenty of surface area as well - ideal for pot plants, for example, or for displaying decorative items. The wall cabinets are also available in two depths, just like the tall cabinets.

MAXIMUM STORAGE

Smart design allows you to make use of the full depth of the drawer and provides a complete overview. The drawer divider keeps things in order, while the soundproofing mats in the bottom make life in the bathroom a little quieter and more pleasant. No matter what colour you choose for your furniture, the interior of the washstand drawers is always black to convey small, secret sense of true luxury.

TALL CABINET WITH MIRROR DOOR
The tall cabinet is just 20 cm deep, but nevertheless provides valuable storage space. The mirror door adds an illusion of space to the small bathroom.

CABINET WITH WASHBASIN
The Artic Small bottom cabinet matches the small but highly efficient washbasin. The washbasin is designed for washing hands and is available in matt black or gloss white porcelain.

Artic Small

Artic Small is a range of furniture with a slim width design, ideal for small, compact or asymmetric toilets. The concept is “mini” – but with the same high levels of quality, design and ambition as the products in our standard Artic range. The units are made of bathroom-class material for humid environments features cabinet frame and door in the same colour.

The doors are fitted with a “soft close” system, which gives them a gentle, luxurious feel. The cabinet is designed for wall mounting, leaving the floor clear to facilitate cleaning – an important consideration, particularly in small bathrooms.

Artic Small makes small bathrooms a little sweeter and brighter.

THINK “ON THE WALL”
In small bathrooms, where surface space is at a premium, it’s a good idea to hang fixtures and furnishings on the wall. For this reason, we are now launching a wall-mounted soap pump holder in a no-frills design. It is available in matt black or chrome and is intended for fitting using strong, double-sided tape. The holder naturally works just as well in the shower as above the worktop.

BACKLIT MIRROR
In conjunction with Artic Small, Gustavsberg is launching a backlit mirror, whose width perfectly matches that of the Artic Small washbasin. Of course, it also works well in other bathrooms and is IP44 classified.

SAME COLOURS AS ARTIC

The furniture units are available in four colours – the same ones as in the standard Artic range for larger bathrooms. All Gustavsberg knobs and handles can be used with Artic Small.

LEFT OR RIGHT

The sink is available in matt black, matt white or glossy white porcelain, with the basin to the right or to the left, which ever fits best in your small bathroom.

The Artic Small sink is also possible to mount on the wall without any cabinet.

Graphic

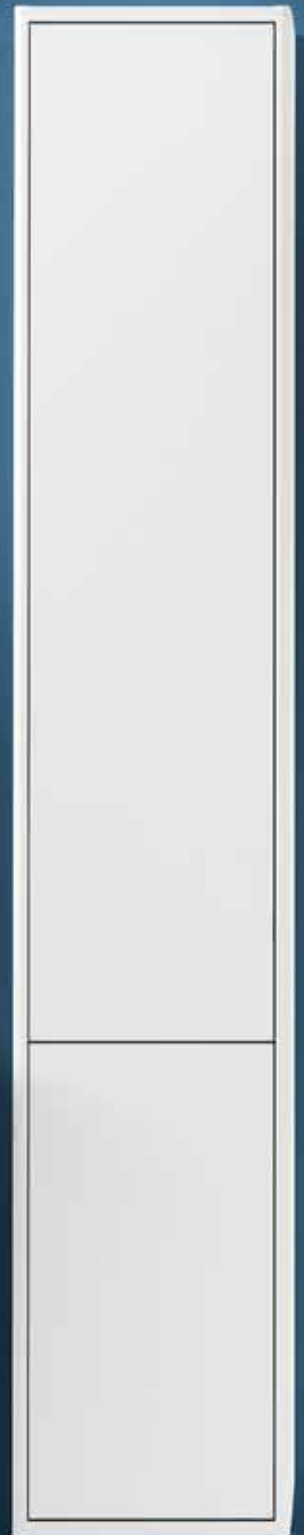

Graphic presents daintier dimensions than most other bathroom furniture units. Our fundamental idea when creating this range was 'maximum storage in minimum space'. The result was a modular approach, where form is very much a feature of function. The design is based on graphic shapes with repeated dimensions, which makes it remarkably simple to furnish with Graphic.

TALL CABINET

The tall cabinet is available in two depths: one for more compact bathrooms, the other for more spacious areas.

The deeper model features smart storage compartments on the inside of the door. This means more storage – neater and tidier, too.

VANITY UNITS

The Graphic range contains vanity unit models for large and small bathrooms alike. All units share a slightly shallower depth than most other vanity units.

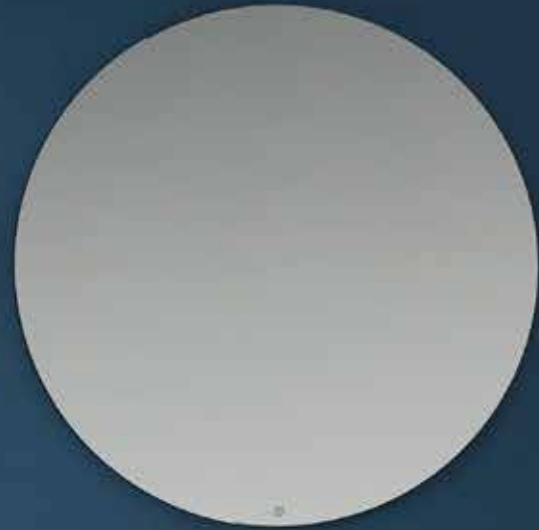

You can use the full length of the drawers as all connections are made behind the unit. The "concealed compartment" provides extra surface space. The full-coverage washbasin in slim, white bathroom porcelain radiates freshness and elegance.

MIRROR CABINETS/ MIRRORS

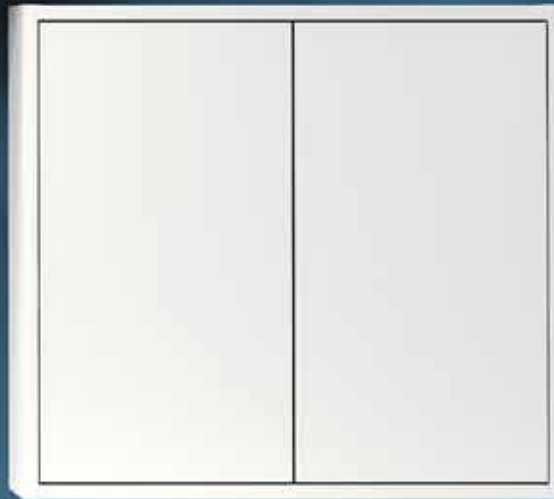

The lighting rail above the mirror provides effective, yet soft and pleasant lighting when you use the mirror. Smart details such as the knick-knack magnet and magnifying mirror are included in the mirror cabinet.

WALL CABINET

The wall cabinet, too, is available in two depths so you can give free rein to your creativity. You can install these cabinets side by side, one above the other, or in an L-shape if you prefer. Deep units for the bottom row, with slimmer models above.

There is no end to the combination options. No matter how you choose to install the cabinets, you can be sure of straight top and bottom lines, which is ideal for creating a harmonious impression. The practical lighting in the counter top ramps up the 'snug factor' in the bathroom.

Graphic colours

The cabinet frames, doors and drawers are all the same colour in the Graphic range, too. However, Graphic washbasins are only available in glossy white porcelain.

Beige, this is a colour that has perhaps the least prepossessing name, but it is constantly being reborn in new trends; like now. Beige is durable in both time and space, and it interacts beautifully with other colours and materials

Grey is much more than just a mix of black and white, and perhaps the colour's finest quality is how its look changes depending on how light and shadow strike it. Graphic's grey is a warm shade.

Green is the colour of nature; and of harmony and calm. Comfortably softened so that it harmonises with pretty much everything else in your bathroom.

White works in all bathrooms and is easy to combine with other colours, materials and textures you want to highlight.

NO FINGERPRINTS
Free from handles, the mirror is neater and easier to clean. Moreover, the frosted edging conceals fingerprints.

FREES UP SPACE
With a unit depth of just 160 mm, it is simple to furnish, find storage space and free up floor space – even in small bathrooms.

BEHIND THE DOOR
The insides of the doors to the deep tall cabinet (320 mm) are fitted with practical storage compartments for the things you use most often.

Graphic Grey

Graphic Beige

MAGICAL BEIGE
Daniel describes beige as an "absolutely magical" colour to work with, because the palette is so wide and beautiful and because it creates harmony.

"Surrounding yourself with beige is like sitting on a sand dune or in a tub of French nougat ice cream and just ... being."

– Daniel Heckscher

You can find more of Daniel's tips on materials, shapes and – most importantly – colour at gustavsberg.com.

Graphic Beige

GOES WITH EVERYTHING
I think the best thing about beige as a colour is that it comes in so many shades. It's soft and it's beautiful and it's balanced, and virtually all colours complement beige."

BEAUTIFUL IS SUSTAINABLE
"I always say that there's a sustainability in beauty," says Daniel. You create a home with materials and colours that are genuinely beautiful, that are not too on-trend, that are not just a fleeting affair but are more like a declaration of love. If you do things this way, you will also create something that will last for this generation and for the next."

SMART LIGHTING
The lighting under the top panel does its job regardless of whether the cabinet is open or closed.

SLIMMER, NEATER WASHBASIN
More slender dimensions are a treat for the eye. However, the material is still the same, durable shiny bathroom porcelain.

PUT THE BEST YOU HAVE ON DISPLAY
It's a great idea to use the storage cube for items you want to keep easily accessible – or simply to put on display.

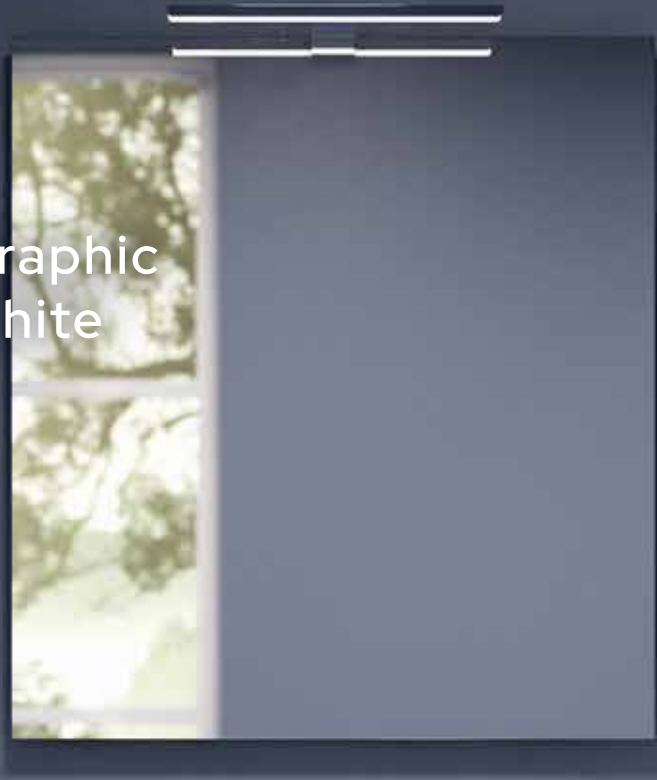

SECRET COMPARTMENT WITH MAGNET
You need space for even the small bits and bobs. The magnetic strip keeps the metal items in place. The drop down "concealed compartment" provides practical surface space, and you can even add a concealed electrical socket here.

Graphic
White

MAGNIFYING MIRROR

Any self-respecting bathroom cabinet needs a magnifying mirror. You can place this one wherever it will be most useful.

**SMART STORAGE**

Neat and tidy storage in the drawers with their useful dividers. Quiet operation thanks to Soft-Close functionality and soundproofing mats. The smart water trap fits in snugly behind the cabinet, allowing you to make use of the full length of the drawer. The lighting in the drawer ensures an even better overview.

**ALL KINDS OF COMBINATIONS**

By combining modules, doors and – in particular – knobs and handles, you can create your very own look in the bathroom. Supplement with matching accessories and mixers for a consistent theme in your furnishing.

Graphic Base

Everyone should have the chance to enjoy a neat, functional bathroom. That's why Graphic Base is available as a supplement to our highly regarded Graphic range of furniture – in a simpler design and at a lower price.

Graphic Base is only available in white and in a more limited range, but it still features many of the smart functions from the Graphic range.

PULL-OUT LAUNDRY BASKET FOR TALL CABINET
Removable metal wire basket for easy transport to the laundry room. Supplied complete with installation fittings and pull-out rails. Suitable for left- or right-hand installation.

Furniture

A bathroom needs to be functional and practical for everyone in the family. It should also serve as a tranquil oasis to which you can retire to recuperate after a demanding day. Both form and function should invite you in for a sweet and simple sojourn in the bathroom.

Bathroom furniture from Gustavsberg features timeless Scandinavian design and maintains a superior level of quality. All materials have been tested to ensure they can withstand the humid environment of a bathroom in use. Our unique spare parts guarantee and complementary products ensure that you and our products can live a long life together. The only question is:

ARE YOU TEAM ARTIC OR TEAM GRAPHIC?

Artic is a range of furniture for the more spacious bathroom, making it easy to furnish the room with elevated design and a superior sense of quality. The units are “pure Scandinavian” in their design idiom, with the emphasis on straight lines and right angles. Artic is available in white, peach, black ash veneer and ash grey. The counter top washbasins are available in glossy white, matt white or matt black glaze.

Graphic, too, radiates Scandinavian quality and feeling for form, but the focus here is on maximum storage in minimum space. The furniture units are neat and compact, based on modules that it is simple to combine. Graphic is available in white, grey, green and beige. The counter top washbasins in the Graphic series is always in glossy white.

THINGS TO THINK ABOUT

Gustavsberg furniture units are built to withstand the ravages of time, but don't forget that both your own life and your bathroom-related needs may change over the years. You will never regret investing in quality and smart storage solutions.

SOFT CLOSE FURNITURE

If the acoustics in a bathroom can result in loud, sudden noises being particularly irritating. With soft-close functionality, cabinet doors and drawers close gently and quietly.

MOISTURE RESISTANT

The wood used in Gustavsberg bathroom furniture has been developed and tested for high durability in hot, humid bathroom environments. Smart design – e.g. The way our washbasins extend beyond the edge of our washbasins – protects the furniture from splashes and eliminates unnecessary moisture traps.

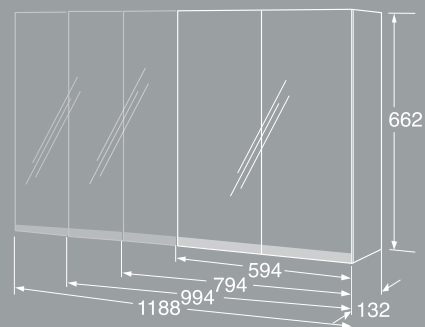

Artic bathroom furniture

Artic's timeless design makes all bathrooms more beautiful. Although Artic is a cultured range, the cabinets can easily 'swallow' everything you need to keep in a bathroom.

The units are based on standard dimensions and feature generous storage areas and surface space, as well as a host of smart details.

Cabinet doors and frames of the same colour create a harmonious bathroom.

Graphic bathroom furniture

Graphic features slightly daintier dimensions than most other bathroom furniture units. The design is based on the repetition of graphic shapes and dimensions; for example, three wall cabinets on top of each other are exactly the same height as a high cabinet, making it easy to furnish with Graphic. Moreover, wall cabinets and high cabinets are available in two depths to suit both large and small bathrooms. Cabinet doors and frames of the same colour create a harmonious bathroom.

Mirror cabinet

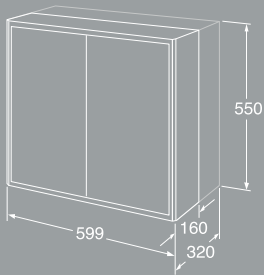

Mirrors and lighting for mirrors and mirror cabinets turns up on page 52.

Graphic Base bathroom furniture

Our popular Graphic range with Graphic Base: a simpler design and a lower price – so that even more people can enjoy the benefits a fully functional bathroom.

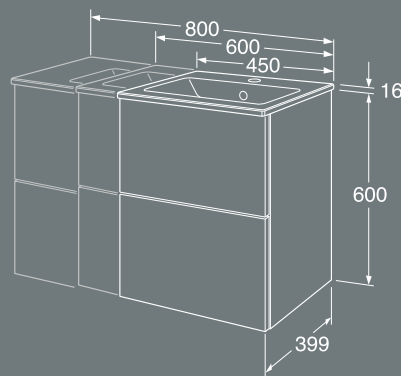

While there are still all kinds of smart Graphic solutions to choose from, Graphic Base is only available in white, and only with a smooth door finish. This, in turn, simplifies the choice of mixers and other accessories. We want it to be simple and straightforward for everyone to put together a neat and functional bathroom.

Mirror cabinet

Mirrors and lighting

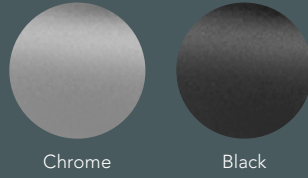

Don't forget about the lighting when planning your bathroom. Weak light – or excessively bright light – will make the bathroom environment dull and sad. A good rule of thumb is to have at least one light for 'general lighting' and one directed light for 'face work'.

Make sure to include mirrors in your calculations as well. It is quite usual to install a mirror above the washbasin, but if you have room, use mirrors as furnishing details – above a wall cabinet, for instance. Mirrors reflect light and increase the feeling of space in the room.

Artic Pro furniture for laundry areas

With Artic Pro – Gustavsberg’s new range of products intended for the laundry area – you can make your laundry room or the laundry section of your bathroom as stylish as the rest of the bathroom.

HANDLES AND KNOBS

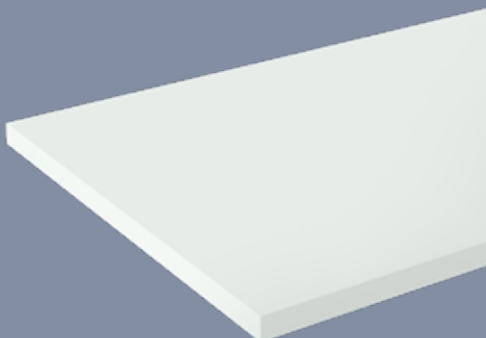

All handles and knobs fit all our bathroom furniture units. Several of the knobs can also be mounted on walls as towel hooks. To see the complete range, turn to page 56.

The wall cabinet – in white – is slightly taller than most other similar cabinets in order to facilitate storage.

Worktop sections in white or Matte black are available to order in bespoke sizes to fit your laundry room precisely.

A white side section with adjustable feet effectively conceals the washing machine or laundry basket from the side.

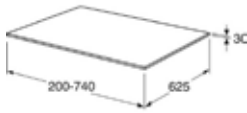

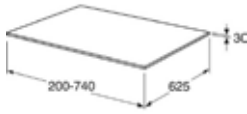

Artic Pro wall cabinet

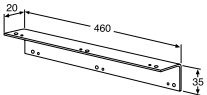

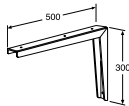

- Soft-close door
- Two movable wood shelves
- Ideal for use as a top cabinet in a laundry room
- Installation system for quick and easy fitting on the wall
- A variety of handles in different styles are available as extras
- Made of bathroom-class material for humid environments

		Colour	Art-no
Width 600 mm		White	GB71ACSC6070TM
		 	
Width 400 mm		White	GB71ACSC4070TM
