

Nordic seat with hygienic lift-off function

Our hard seats for the toilets from the Nordic range are available with a "lift off" fitting from Pressalit. This allows you to remove the seat from the toilet easily and without the use of tools. You can then clean the seat and the toilet bowl separately, which is much simpler and much more hygienic. The entire Nordic toilet range is presented in the "Products" section of our "Everyday Heroes" brochure, which you can find online at www.gustavsberg.se.

The pictures here show the Nordic toilet bowl 2330 and Nordic toilet 2300.

Range of seats with lift off fitting for Nordic toilets
