The picture shows

WC Nordic Star with concealed S-trap. Matt chrome cistern cover. With 3/6 liters flushing and soft close seat.

Description

Nordic Star is the latest top model in the Nordic range. The flush cistern cover sits tight against the porcelain. You can choose a cover in white or matt chrome. A flexible water connection makes for easier installation and a more attractive result. Hydraulic dampeners - soft close - ensure that the seat always closes softly against the porcelain bowl. The dampeners are integrated to improve hygiene and simplify cleaning. On Nordic Star, the lower porcelain is surface-treated with Ceramicplus, preventing water, dirt and limescale from getting a foothold, which together with the glazing under the collar makes for easier cleaning and better hygiene.

More information and inspiration

Approval & standards

CE approved and Nordic Quality certified. Product follows AMA recommendations, SS-EN 33 dimensioning and SS-EN 997 function. "Säker vatteninstallation" (secure water installation) compliant.

Logistics
