SMART BATHROOMS FOR A BRIGHTER FUTURE

This Gustavsberg catalogue is packed with ideas, inspiration and everything you need to furnish your bathroom completely. You will also find a variety of examples of sustainable development.

In one way or another, we at Gustavsberg have been working with sustainability ever since we established our sanitary porcelain factory in 1939. Over the years, we have created high-quality products, patented solutions and award-winning design at this factory. Since the 1960s we have been world leaders in the field of water and energy-saving initiatives. Our mixers with their unique, award-winning technology are made at our own factory in Vårgårda, Sweden.

And more innovations are on the way.

A new, more modern Gustavsberg factory is

scheduled for completion in the immediate future.

This new facility will provide us with even greater opportunities to make environmental adjustments to our business.

By selecting smart products from Gustavsberg, you can contribute to boosting sustainable development. Smart use of water and energy-saving technology will make a huge difference to your finances – and to the environment.

On page 18, you can find out more about World Toilet Day and our partnership with the WaterAid organisation. Hygienic toilets and clean water are in short supply in many parts of the world. In this area, too, it feels only natural for us to make a contribution to a brighter future.

Welcome to smart bathrooms from Gustavsberg.

WHY SHOULD YOU CHOOSE GUSTAVSBERG?

FOR THE ENVIRONMENT

Gustavsberg products help minimise your consumption of water and energy, but our environmental work goes much further than that. To take a holistic approach to our business and to production at our two factories in Sweden, we have developed our own 6-step sustainability model. Our goal is – product by product and work routine by work routine – to reduce both your and our own carbon footprint to an absolute minimum.

FOR YOUR FINANCES

Price comparisons place Gustavsberg bathroom products somewhere in the middle of the price range. However, such comparisons fail to take into account how inexpensive our products are to own. High quality gives them a long service life, and innovative solutions – of which several have already won international awards – help cut your energy and water costs in the long term.

FOR THE QUALITY

A bathroom has to last for years and years. This applies not only to the products' function, but also to their appearance, because the bathroom should keep on looking inviting and cosy. As all the components that make up your bathroom are exposed to the same wear and tear, it is essential that all the products you choose maintain the same high standard of quality.

FOR SERVICE AND SPARE PARTS

We guarantee that spare parts for your Gustavsberg product will still be available for ten years after we – may possibly – have stopped making it. If anything should go wrong in your bathroom, visit our website at www.gustavsberg.com and watch our instruction films to help you identify the problem.

WE NEVER BOAST. WE'D RATHER TELL YOU THE FACTS.

Our energy-saving washbasin mixers from the Nautic and Logic ranges were awarded the highest possible marks in the stringent efficiency tests developed by SIS TK 519 and Kiwa. The secret of our success is our unique heat and flow functions that result in the mixer immediately returning to its energy-saving comfort position as soon as you release the lever. In this way, it helps you to save incredible amounts of energy, water and even money – automatically. If you want hotter water or to increase the flow, simply move the mixer lever to its outermost posi-

tion. Nautic and Logic models can also be individually customised, which is yet another feature that makes Gustavsberg mixers stand out from the competition. However, as we say, we never boast. We'd rather tell you the facts.

BECAUSE OF THE BROAD RANGE

We are a complete supplier of high-quality bathrooms. Nordic standards and pure, timeless design make it simple to combine all products from Gustavsberg to create precisely the bathroom you want.

BECAUSE OF THE FLEXIBILITY

We have developed our products to cover requirements in small bathrooms, large bathrooms, public bathrooms and bathrooms in care environments. In our view, you should never be far from your nearest dealer and fitter. Our goal is to provide you with the best possible support when you create a complete bathroom – down to ergonomically appropriate solutions for the fitter who is to carry out the work.

BECAUSE IT IS SMART

In the Gustavsberg world, "smart" is an umbrella term for everything that makes your everyday life a little easier and more convenient. Good design should be both pleasing on the eye and a pleasure to use every time it fulfils its function perfectly for many, many years to come.

GUSTAVSBERG'S ENERGY-SAVING NAUTIC AND LOGIC MIXERS WERE AWARDED THE HIGHEST POSSIBLE MARKS WHEN SIS TK 519 AND KIWA TESTED THE ENERGY EFFICIENCY OF A VARIETY OF MIXERS.

WHICH FUNCTION DO YOU THINK IS SMARTEST?

Simple solutions are often the best. Even better – in our opinion – are solutions that you barely even notice. It is through these that we make your bathroom experience even simpler and even more of a pleasure.

From the perspective of the environment, invisible means are the best way to encourage you to behave smarter – without having to make a special effort, or even being reminded that you are part of the

group of people who treat the Earth and our resources with respect.

The innovation you encounter in our products also has to do with hygiene, ergonomics or – quite simply – well-being.

To help you find the properties that are most important to you in your bathroom, we have prepared the simple symbols presented here. If you ask us, all our solutions are equally smart.

HYGIENIC FLUSH

SMARTER FLUSHING FOR IMPROVED HYGIENE AND EASIER CLEANING. THE INNOVATIVE DESIGN WITH OPEN RIM AND SMOOTH SURFACES ELIMINATES ALL POTENTIAL DIRT TRAPS. HYGIENIC FLUSH MINIMISES THE NEED TO USE STRONG CLEANING AGENTS.

SMART SYMBOLS FOR SMART SOLUTIONS

To make it simple for you to recognise all the benefits of Gustavsberg's smart bathroom products, we have illustrative symbols for our smart functions, which may not always be immediately visible.

ENERGY-SAVING

A REVOLUTIONARY ENERGY-SAVING FUNCTION THAT CAN HELP REDUCE YOUR ENERGY CONSUMPTION BY 50%. THE SIMPLE SOLUTION IS BASED ON THE FACT THAT YOU HAVE TO MOVE THE LEVER ACTIVELY ALL THE WAY TO THE LEFT TO REACH THE MAXIMUM WATER TEMPERATURE. WHEN YOU RELEASE THE LEVER, IT AUTOMATICALLY RETURNS TO THE PRESET COMFORT TEMPERATURE, APPROX. 38-40 °C. THE COMFORT TEMPERATURE IS FULLY ADJUSTABLE TO MATCH INDIVIDUAL PREFERENCES.

WATER-SAVING

THIS MIXER HELPS YOU AVOID USING MORE WATER THAN NECESSARY. THE STARTING POSITION PROVIDES A PRESET COMFORT FLOW, WHICH IS SUFFICIENT FOR WASHING UP OR WASHING YOUR HANDS, FOR EXAMPLE. TO OPEN THE FULL FLOW, YOU NEED TO LIFT THE LEVER TO ITS HIGHEST POSITION. WHEN YOU RELEASE THE LEVER, IT AUTOMATICALLY RETURNS TO THE COMFORT FLOW POSITION. THE FLOW FUNCTION IS FULLY ADJUSTABLE TO SUIT INDIVIDUAL PREFERENCES.

ECO-START

AN ENERGY-ECONOMICAL MIXER THAT STARTS AUTOMATICALLY AT A TEMPERATURE OF 17 °C FROM ITS STARTING POSITION (LEVER STRAIGHT AHEAD), HELPING YOU SAVE BOTH ENERGY AND MONEY.

SENSOR-CONTROLLED MIXER

THE SMART SENSOR TECHNOLOGY AUTOMATICALLY HELPS YOU TO SAVE ENERGY AND AVOID WASTING WATER. THE MIXER TURNS ON WHEN YOU PLACE YOUR HANDS IN THE APPROPRIATE POSITION, AND SHUTS OFF AGAIN AS SOON AS YOU REMOVE THEM. DURING CLEANING, COVER THE SENSOR EYE TO DISABLE THE MIXER TEMPORARILY. POWERED BY A STANDARD BATTERY OR TRANSFORMER.

EVEN TEMPERATURE

THERMOSTATIC MIXERS FEATURE BUILT-IN AUTOMATIC SCALD PROTECTION AND HOT-WATER SAFETY STOP WITH TYPE-APPROVED NON-RETURN VALVES. THIS MEANS THAT THE MIXERS REACT QUICKLY TO THE CHANGES IN TEMPERATURE AND PRESSURE THAT CAN ARISE IN THE WATER FLOW, AND EVEN OUT THE DIFFERENCES.

ANTI-BACTERIAL COLOURS

THE MIXER'S ANTI-BACTERIAL SURFACE TREATMENT ON ALL PAINTED LEVERS AND HANDLES COUNTERACTS THE SPREAD OF BACTERIA (SUCH AS PNEUMOCOCCI AND MULTI-RESISTANT BACTERIA), VIRUSES AND FUNGI, FOR EXAMPLE. THE SURFACE TREATMENT HAS A LONG-TERM EFFECT, PROVEN FOR AT LEAST FIVE YEARS.

AUTO-REPAIR COLOURS

THE MIXER FEATURES UNIQUE AUTO-REPAIR PROPERTIES, WHICH MEAN THAT MINOR SCRATCHES THAT APPEAR ON PAINTED LEVERS AND HANDLES IN THE LOGIC RANGE QUITE SIMPLY DISAPPEAR ON THEIR OWN. THE PAINTED SURFACE TREATMENT MAKES THE MIXER MORE DURABLE AND REDUCES THE RISK OF BACTERIA SPREADING.

SOFT CLOSE FURNITURE

THE ACOUSTICS IN A BATHROOM CAN RESULT IN LOUD, SUDDEN NOISES BEING PARTICULARLY IRRITATING. WITH SOFT-CLOSE FUNCTIONALITY, CABINET DOORS AND DRAWERS CLOSE GENTLY AND QUIETLY.

CLEAR GLASS

SHOWER WALLS ARE CONSTANTLY SUBJECTED TO WATER, SOAP, OILS, SHAMPOO AND LIMESCALE. FOR THIS REASON, ALL GUSTAVSBERG SHOWERS ARE FITTED WITH "CLEAR GLASS" – A PROTECTIVE EXTERIOR LAYER THAT FACILITATES CLEANING AND HELPS REDUCE THE AMOUNT OF DETERGENT YOU NEED TO USE.

TILT-IN

THE BOTTOM EDGE OF SHOWER CORNERS, WHERE THE DOOR MEETS THE FLOOR PROFILE, IS USUALLY VERY DIFFICULT TO KEEP CLEAN. OUR "TILT-IN" FUNCTION MAKES IT SIMPLE FOR YOU TO REMOVE THE SHOWER DOORS FROM THE FLOOR PROFILE FOR MORE EFFICIENT CLEANING AND IMPROVED HYGIENE.

ELEVATING HINGE

THE ELEVATING HINGE IS A SMART DETAIL THAT LIFTS THE SHOWER DOOR 5 MM EVERY TIME YOU OPEN AND CLOSE IT. THIS MINIMISES WEAR ON BOTH THE FLOOR AND THE SHOWER DOORS. A PRACTICAL FUNCTION THAT PROVIDES A SENSE OF AUTHENTIC LUXURY.

GLAZEPLUS

OUR BATHTUBS ARE AVAILABLE WITH AN EXTRA SURFACE TREATMENT CALLED "GLAZEPLUS". THIS IS A CRYSTAL-CLEAR POLYMER FILM THAT PROTECTS THE SURFACE OF YOUR BATHTUB AGAINST DIRT AND LIMESCALE DEPOSITS – WHICH FACILITATES CLEANING AND REDUCES THE AMOUNT OF DETERGENT YOU NEED TO USE.

ANTI-SLIP

THE BATHTUB IS AVAILABLE WITH AN ANTI-SLIP TREATMENT WHERE QUARTZ SAND HAS BEEN BURNED INTO THE ENAMEL IN AN AESTHETICALLY NEUTRAL PATTERN. THE SURFACE COUNTERACTS THE RISK OF SLIPPING WHEN ENTERING OR LEAVING THE BATHTUB. MOREOVER, IT IS LOCATED AT THE FOOT END OF THE TUB SO THAT IT DOES NOT AFFECT THE OVERALL BATHING EXPERIENCE.

SUPPORT HANDLES

YOU CAN ORDER THE BATHTUB WITH SUPPORT HANDLES ON THE RIM TO IMPROVE SAFETY AND EASE OF USE.

CERAMICPLUS = C+

MANY OF OUR PRODUCTS ARE AVAILABLE WITH C+ SURFACE TREATMENT. THIS PROVIDES THE PORCELAIN WITH A DIRT-REPELLENT SURFACE THAT PREVENTS THE ACCUMULATION OF LIMESCALE AND DIRT. C+ IS ALSO GOOD FOR THE ENVIRONMENT, AS IT MEANS THAT YOU CAN USE A Milder DETERGENT – AND LESS OF IT! – WHEN CLEANING.

QUICK RELEASE

WITH QUICK-RELEASE FUNCTIONALITY, YOU CAN REMOVE THE WC SEAT FROM THE BOWL EASILY AND WITHOUT TOOLS. THE SEAT AND TOILET CAN THEN BE CLEANED SEPARATELY, WHICH IS BOTH SIMPLER AND MORE HYGIENIC.

SOFT CLOSE

HARD, SOLID TOILET SEATS HAVE PREVIOUSLY BEEN ASSOCIATED WITH LOUD NOISES WHEN THEY ARE LOWERED. SOFT CLOSE FUNCTIONALITY HAS SOLVED THIS PROBLEM THROUGH THE INTRODUCTION OF A DAMPER THAT IS BUILT INTO THE SEAT TO ENSURE THAT IT CAN BE LOWERED GENTLY AND QUIETLY. THE DAMPER HAS NO DIRECT CONTACT WITH THE PORCELAIN, WHICH FACILITATES CLEANING AND MAKES THE SEAT MORE HYGIENIC.

HYGIENIC FLUSH

SMARTER FLUSHING FOR IMPROVED HYGIENE AND EASIER CLEANING. THE INNOVATIVE DESIGN WITH OPEN RIM AND SMOOTH SURFACES ELIMINATES ALL POTENTIAL DIRT TRAPS. HYGIENIC FLUSH MINIMISES THE NEED TO USE STRONG CLEANING AGENTS.

“WE ONLY KNOW ONE PORCELAIN QUALITY – THE BEST QUALITY.”

He has been employed by the Gustavsberg Group since 1988 and is now Product Manager at Villeroy & Boch Gustavsberg, Sweden. Stefan Ljung is the engineer who became an authority on sanitary porcelain.

SLIGHTEST FLAW AND THE JOURNEY IS OVER.

ONLY THE RIGHT MATERIALS

Stefan explains that the clay that is to become Gustavsberg sanitary porcelain comes almost exclusively from England. Because closely vitrified porcelain shrinks approximately 13 per cent during firing – i.e. at a temperature of around 1200 °C – the raw material must meet extremely stringent demands.

The heat forces the clay and the silicates in the glaze to sinter and create a ceramic material that is so tight that even bacteria find it hard to attach to it.

“We only know one quality for our porcelain,” emphasises Stefan. “The best quality”.

MANUAL WORK

Today, the production process is automated to guarantee a uniform, high-quality result, but a number of processes must still be performed manually. Irregularities and burrs are polished off by hand, resulting in a difference in quality that remains evident all the way to the end user’s bathroom. And nothing is released for delivery without manual inspection and checks.

ELIMINATION EVERY STEP OF THE WAY

During the production process, units are eliminated on account of even the smallest fault. No deviations in shape are permitted, and the glaze must maintain the optimal thickness.

“If you get careless, there is a risk that the clay may shine through,” explains Stefan. He then adds with some pride: “You will never see this on a Gustavsberg unit.”

A DURABLE NATURAL MATERIAL

The tough treatment produces a hard surface that lasts for generations. And it is this living surface, the reflections and the changes that make the porcelain so beautiful. It never ceases to delight the eye. The glaze on Gustavsberg sanitary porcelain is colour permanent and resistant to dirt, water and chemicals. And the porcelain contains no toxins or hormone-disruptive substances that can negatively impact the environment.

MATERIAL OF THE FUTURE

Stefan explains that development in the field of materials is currently moving very fast. We will soon see more extreme, thinner shapes moving into the bathroom – but still made of porcelain. Trends come and go, and new materials are constantly being discovered on the global market, but none has thus far been able to compete with porcelain.

“We at Gustavsberg don’t even look at other materials,” concludes Stefan Ljung.

SMARTER IN EVERY DETAIL

Gustavsberg received recognition for its environmentally smart packaging solutions for the Nautic range when the solutions won the prestigious If Packaging Award.

A portrait of Stefan Ljung, a middle-aged man with light hair and glasses, wearing a dark grey sweater over a white collared shirt. He is standing in a factory or industrial setting, with a bright, glowing orange light source in the background. The background is slightly blurred, showing industrial equipment and structures.

STEFAN LJUNG
PRODUCT MANAGER, PORCELAIN

“OUR PRODUCTS ARE SO DURABLE THAT
YOU WON’T WANT TO REPLACE THEM”

WE HELP MINIMISE YOUR CARBON FOOTPRINT.

"We use a model we call 'Gustavsberg's 6 environmental steps' on an everyday basis to help us maintain an eco-smart approach throughout all our projects. Our aim is to reduce the carbon footprint to an absolute minimum.

"And when it comes to environmentally smart products, our mixers are a shining example. They feature a built-in energy-saving function that helps you to reduce water consumption and, above all, to minimise the amount of energy needed to heat the hot water. In fact, if you were to replace all the mixers in Sweden with energy-saving models from Gustavsberg, you could actually shut down an entire nuclear power plant. It is an eco-smart function that also has a beneficial effect on your wallet.

"When we make our porcelain units, we use the residual heat from the furnaces to heat the building. In addition, we reuse the water utilised in the production process.

"We also give high priority to recycling and have therefore made an extraordinary effort to reduce the amount of packaging material used for our products. When we produced our new range of mixers, we decided to wrap the products in a simple microfibre cloth rather than using standard packaging material that is difficult to sort and recycle. Our customers can use the microfibre cloth to clean their homes, and using it also reduces their consumption of cleaning agents.

"I believe that a lot of people are unaware of how much water and energy goes to waste in their bathrooms. Therefore, I consider it to be almost an obligation for us as a company to tell people how much they can actually save by using energy-efficient mixers and economy-flush toilets. The more people use Gustavsberg products, the faster we will approach the day when we can close that nuclear power plant."

Katharina Klotz, Head of Marketing

GUSTAVSBERG'S 6 ENVIRONMENTAL STEPS,

THIS IS HOW WE WORK WITH SUSTAINABILITY AND THE ENVIRONMENT.

Gustavsberg is proud and pleased to have been an environmentally certified company for many years. However, rather than resting on our laurels, we are working harder than ever to achieve our aim of ensuring that Gustavsberg has as little impact as possible on the

environment. Our sustainability work permeates all areas of our business, from the initial project start-up to completion of the eco-smart bathroom that saves both energy and money for you, who use it – while simultaneously helping to protect the environment.

For additional information about our environmental and sustainability work and to see the whole of the filmed interview with Katharina Klotz, visit www.gustavsberg.com/about-gustavsberg/sustainability.

KATHARINA KLOTZ
HEAD OF MARKETING

**“A LOT OF PEOPLE PROBABLY HAVE NO
IDEA HOW MUCH WATER AND ENERGY
THEY CAN SAVE IN THEIR BATHROOM.”**

THANKS FOR THE MEMORIES, FACTORY

IN ORDER TO CONTINUE TO DEVELOP THE BATHROOMS OF THE FUTURE, WE ARE PLANNING A NEW, MORE MODERN FACTORY IN GUSTAVSBERG. IT IS WITH THANKS, PRIDE AND A GOOD HELPING OF NOSTALGIA THAT WE BID FAREWELL TO THE OLD FACTORY.

Gustavsberg has been producing porcelain in Gustavsberg since 1825. The company's very first factory was previously a brickworks. The facility was gradually used to make both household porcelain and decorative items, and it was at this early stage that the anchor stamp was introduced as a guarantee of the high quality of the goods. In 1939, the company opened its sanitary porcelain factory.

Today, Gustavsberg is one of the leading brands in Sweden in the bathroom sector.

One of the keys to this success is that we have remained true to our origins in the Stockholm Archipelago, while continuously adopting new technology and modernising our design idiom.

Throughout the decades that we have been producing bathroom porcelain at our factory in Gustavsberg (and mixers in our factory in Vårgårda), we have continued to develop functions and neat details that you take for granted today when building a new, ultra-modern bathroom.

For example, we have introduced economy-flush toilets, mixers that save both water and energy, and dirt-repellent surface treatments. Some of the leading designers in Sweden have worked on

site in our factory, because what use are smart solutions unless they are packaged in units attractive enough to grace your home?

Today, we are an environmentally certified enterprise that takes responsibility for the full life cycle of the products – from product development and manufacture at the factory, to logistics and the finished bathroom. Simply by installing our products you can save energy, water and money.

It has been a fantastic journey. We would like to thank the old factory for years of faithful service, and look forward to a string of successes at the new one.

THE NEW FACTORY BUILDING IS SCHEDULED FOR COMPLETION IN 2014.

SOME OF OUR INNOVATIONS SINCE 1939

1939

OFFICIAL OPENING OF THE SANITARY PORCELAIN FACTORY

Our name and history date all the way back to a brickworks from 1640. At this facility, we started making household porcelain and decorative items in the early 1800s. The new factory was delivered from Germany in 1939 and set up as a turnkey installation comprising machines, buildings and everything.

THE 1940s THE FIRST PATENTS

Gustavsberg presents its first patented design: a WC with a low-flush cistern. This is soon followed by washbasins for the new single-lever mixers that eliminate the need for separate taps for hot and cold water.

THE 1950s THE DECADE OF DESIGN

Some of the leading designers in Sweden work at the Gustavsberg factory, developing washbasin models that are still in use today. For example, they create the first washbasin in the world without a rim (the edge which traditionally prevented the raw material from collapsing and losing its shape in the kiln). And Gustavsberg becomes a pioneer in coloured bathroom porcelain.

THE 1960s KNOWLEDGE AND SOLUTIONS

Gustavsberg launches the removable toilet seat, simplifying cleaning for ever. It was previously considered a bit "tacky" to investigate customers' habits in the bathroom, but huge leaps in ergonomics are made during this decade.

THE 1970s COLOURS ARE COOL

The oil crisis in 1974 marks the start of Gustavsberg's commitment to energy-saving solutions. The company develops WC systems that flush just as clean with less water. The porcelain itself is made in colours including golden, olive green and chestnut.

1980 TO THE 1990s TECHNOLOGICAL PROGRESS

Gustavsberg starts to make mixers and develops – as just one of its many innovations in this period – unique water-saving technology that takes the world by storm.

THE 2000s NEW OWNERS, NEW PREMISES

In 2000, Gustavsberg is purchased by Villeroy & Boch. The technological progress continues, and new complete bathroom ranges are developed. Some of them are still made at the old factory. The official opening of the new factory is scheduled for 2014 ...

TO VIEW OUR ENTIRE HISTORY, FROM GUSTAV GABRIELSSON OXENSTIERNA'S BRICKWORKS TO THE NEW FACTORY VISIT WWW.GUSTAVSBERG.COM

NEW PORCELAIN IN THE OLD
PLASTER FOUNDRY AT OUR FAITHFUL
FACTORY IN GUSTAVSBERG

WE THRIVE IN OUR NEW BATHROOM!

The old bathroom in the 1960s villa was furnished with black tiles and yellow porcelain. It was quite charming, but not particularly functional. Plans to renovate the bathroom were already being laid

when the discovery of damp damage turned the situation acute. The Elmgren family tore it out and built a new one.

THE GENEROUS LOGIC BATHTUB HAS BEEN GIVEN PRIDE OF PLACE IN THE FAMILY'S NEW BATHROOM.

FROM TYPICALLY DRAB 60S TO TIMELESS. SPACIOUS AND FRESH.

THE ELMGREN FAMILY LIVES JUST OUTSIDE STOCKHOLM. WATCH THE FILM OF THEIR THOUGHTS AND IDEAS PRIOR TO THE RENOVATION AT WWW.GUSTAVSBERG.COM / INSPIRATION & PLANNING

BLOGGED FOR GUSTAVSBERG

In last year's catalogue, we invited our readers to follow the renovation and the progress of the new bathroom online at www.gustavsberg.com. Here, around a year later, we present the final result and provide some tips about what you, as a family, should bear in mind.

THE ENVIRONMENTAL ASPECT IS IMPORTANT

It was important to Lotta to make sure that the new bathroom was fitted with water and energy-efficient mixers. Moreover, the new porcelain with its Ceramicplus surface treatment is a huge improvement from both practical and environmental perspectives. The wall-mounted WC frees up surfaces and is kind on your back when cleaning.

SPACE FOR SEVERAL

The family chose to do away with their two washbasins to make room for a spacious bathtub, but as it turned out, the delightful corner bathtub from Logic took up less space than they thought. As a result, there was room for two de luxe recessed washbasins as well. Creating larger surfaces was a clear goal from the very start, but with all the family leading busy lives it is still a plus to have walls and private space – in the new shower alcove, for example.

A HAPPY ENDING

Lotta and Linus commissioned an architect to identify additional opportunities – a choice they certainly do not regret today. They moved walls and laid new pipes, and all the work tapped into their energy. However, on their blog they conclude with great satisfaction: "It feels like the drawn-out project will soon be just a memory."

HINTS AND TIPS FROM THE FAMILY:

- Take the time to plan thoroughly – ideally with an architect.
- Mark off distances and sizes on walls and floor to create an image of the end result.
- Make sure to plan where you want to position small elements such as toilet paper holders.
- Try to steer the fitter towards a fixed-price project with a penalty clause for delays.

BEFORE: THE BATHROOM FROM THE 60S HAD ITS CHARM BUT WAS ALSO DARK, CRAMPED, AND IMPRACTICAL.

A SMART SOLUTION: THE MIRROR CABINET SEMI-RECESSED INTO THE WALL PROVIDES MORE SPACE.

“IT’S DELIGHTFUL TO HAVE A LARGE SHOWER, A WONDERFULLY SPACIOUS TUB AND PLENTY OF STORAGE SPACE”

NEW KAROLINSKA IN SOLNA CHOSE GUSTAVSBERG

The next time you happen to find yourself in the toilets at a hospital, a school or any other public institution, it is highly likely that you will notice Gustavsberg's familiar anchor symbol on the sanitary porcelain and/or the mixer. The reason for this is that we are experts in public environments and manufacture products that can easily live up to the tough demands made by such settings.

WELCOMING WASHBASIN

A slimmer, broader and height-adjustable washbasin makes life easier for users who suffer from a functional impediment or are confined to a wheelchair.

SMART FLUSH BUTTON FOR EVERYONE

The flush button on our Nautic toilets is ergonomically designed and easy to use – even for people with reduced muscle strength and/or impaired vision. And even children find it easy to understand. A wall-mounted WC facilitates cleaning, too.

GRIP-FRIENDLY

An extended, grip-friendly lever on the tap assures the user greater power and precision in the on/off movement.

When it comes to hospitals, the demands on sanitary porcelain are extremely stringent from the perspectives of both hygiene and accessibility. Toilets, washbasins and mixers must all be easy to use for people with diminished mobility and muscle strength. They must be easily accessible, hygienic, simple to keep clean and – in particular – energy-saving.

GUSTAVSBERG'S FUNCTIONALLY ADAPTED PRODUCTS ARE NOT RESERVED EXCLUSIVELY FOR HOSPITALS. THEY ARE JUST AS GOOD FOR PROVIDING EXTRA SUPPORT AT HOME.

THE UNIVERSITY HOSPITAL OF THE FUTURE

The New Karolinska Solna hospital for advanced healthcare, research and education is scheduled to open in 2016. The hospital authorities have awarded Gustavsberg the contact to supply sanitary porcelain and mixers.

A SUSTAINABLE BUILDING

The prestigious hospital project is to be constructed and operated with the least possible environmental impact and is to be sustainable in the long term. For example, it is a requirement that all shower and washbasin mixers are to be environmentally approved. That is why Skanska chose to work with Gustavsberg to develop a range of specially adapted products.

“WE WANTED TO FIND A SUPPLIER WITH THE CAPACITY TO TAILOR A HOLISTIC SOLUTION FOR SANITARY PORCELAIN AND MIXERS THAT LIVED UP TO THE CLIENT’S REQUIREMENTS AND WAS ALSO IN THE RIGHT PRICE RANGE FOR THE PROJECT. IT WAS SOON CLEAR THAT GUSTAVSBERG WAS THE BEST QUALIFIED SUPPLIER.

“ONE OF THE REQUIREMENTS WAS THAT ALL SHOWER AND WASHBASIN MIXERS WERE TO BE ENVIRONMENTALLY APPROVED BY THE

– Bob Boote, Mechanical Manager, Skanska Healthcare AB, New Karolinska Solna

SWEDISH BYGGVARUBEDÖMNINGEN (BVB – ENVIRONMENTAL EVALUATION OF BUILDING PRODUCTS) ORGANISATION. GUSTAVSBERG THEREFORE WORKED CLOSELY WITH SKANSKA TO COME UP WITH A RANGE OF PRODUCTS THAT COVERED ALL THE CLIENT’S REQUIREMENTS.

“I THINK THAT THIS IS THE FIRST HOSPITAL IN SWEDEN WHERE ALL SHOWER AND WASHBASIN MIXERS ARE APPROVED BY BVB AS A SOUND ENVIRONMENTAL CHOICE.”

IN THE FUTURE, EVERYONE WILL HAVE A TOILET

It might sound like a crazy publicity stunt, but World Toilet Day on 19 November has to do with one of the biggest challenges of our age. The objective is to boost awareness of the need for better hygiene and sanitary conditions for the most vulnerable people in the world.

TOILETS SAVE LIVES

An acute global problem today is the fact that around 768 million people do not have access to clean water. Even more – approx. 2.5 billion – do not have access to a toilet.

Because of this, more children die each year of diarrhoea illnesses than from AIDS, malaria and measles combined. Moreover, 50 per cent of all sick beds in developing countries are occupied by people who have been infected by unclean water.

There are social consequences to the problem, too. For example, young girls and women are at increased risk of attack when they have to relieve themselves outside in the dark.

This is something we want to change.

AN ASSIGNMENT FOR GUSTAVSBERG

Less than a century ago, Gustavsberg was involved in building projects designed to eliminate “Crap Sweden” as it was known. At that time, it was Swedish society that was suffering from the effects of poverty and misery. To remedy the situation, households were increasingly fitted with water closets, and awareness of the importance

of sanitation and hygiene spread to the general public. Now that the same development is taking place in other parts of the world, it is only natural that Gustavsberg should play an active role.

WORLD TOILET DAY 2013

To attract attention and boost awareness of World Toilet Day on 19 November, we participated in the WaterAid campaign entitled “I love toa” (I love my toilet). A number of Swedish celebrities were invited to decorate a toilet. The winning design was then chosen through a public vote, and every vote cast triggered a donation to WaterAid.

IMPROVING SLOWLY BUT SURELY

World Toilet Day is endorsed by the UN. WaterAid was formed in 1981 and takes a long-term approach to its work with sanitation and water issues by providing subsidy and political influence. The task is gigantic, but over the past decades WaterAid has made impressive progress:

- Since 1981, 19.2 million people have gained access to clean water.
- Since 2004, 15.1 million people have received education about sanitation and hygiene.

In 2014, we at Gustavsberg hope to contribute to giving even more people the chance of a better life through access to clean water and sanitation.

“WHAT WOULD YOUR DAY LOOK LIKE IF YOU DIDN'T HAVE ACCESS TO CLEAN WATER AND A TOILET?”

CECILIA CHATTERJEE-MARTINSEN CHIEF EXECUTIVE OF WATERAID

Just a few generations ago, Sweden was battling problems with cholera and other infectious diseases. It took shared input, planning and re-building to lift the country out of its miserable condition. The WaterAid organisation is carrying out similar work around the world today.

“This is a problem that most of us have ‘conveniently’ forgotten. The toilet is hugely under-appreciated,” says Cecilia Chatterjee-Martinsen.

WaterAid works with local organisation and employs local labour. It is important that the people involved also own the process when the problem is “built away”. The end product is usually very simple: shared toilets and clean water – that saves lives.

“Gustavsberg has the legitimacy to highlight the issue as the company was involved in – and helped to power – the historical development that led to the welfare we enjoy in Sweden today.”

THE VOTE FOR THE BEST TOILET DESIGN WAS WON BY MAGNUS CARLSSON, THE ARTIST AND SINGER. THE VOTING PROCEDURE ALONE – WHERE THE CAMPAIGN SPONSORS DONATED FUNDS TO WATERAID'S WORK FOR EACH VOTE CAST – GENERATED A WHOPPING SEK 119,450.

WHICH BATHROOM ARE YOU?

When you fit out a bathroom with furniture from Gustavsberg, you need not to choose between form and function. You get both. All our products are designed to match, no matter how you choose to lay out the most individual room in your home. This is just one of the properties that make our bathrooms smarter than others. Behind the timeless design with its pure, organic shapes,

lie innovations and technology that make your everyday life easier, and which are kind to both the environment and your wallet. To make things even easier for you, we have divided out bathroom furnishing solutions into small, medium and large. With inspiring examples, we aim to stimulate your imagination to help you create a bathroom that is very much ... you.

NEW! SMALL & LIGHT

There is a lot you can do to make a small room feel more spacious and generous than it actually is. In our example, the use of the pale woods helps generate a naturally light and fresh feeling. "Back to the pure and simple" is one of several furnishing trends in the world of bathrooms.

MEDIUM & TRENDY

Thanks to the extensive Gustavsberg range, it is easy to create a completely individual bathroom. So why limit yourself to a single look when you can draw inspiration from several wonderful styles at the same time? This "industrial-rural" example is perfect for standard-size bathrooms. The new furniture, porcelain and mixers are all from the Logic range.

MEDIUM & ECO-SMART

This attractive bathroom inspired by functionalism conceals a host of eco-smart and functional details. Take our award-winning Nautic washbasin mixer as an example: its built-in energy-saving function helps you to save water, energy and money. Automatically. This is a neat, functional and eco-smart option for normal size bathrooms.

NEW! LARGE & STYLISH

There is much to gain by furnishing a big room with dark, cosy colours. Darkest of them all, of course, is black. Black tiles, black bathroom furniture and black details create a sophisticated, luxurious impression. Black is just as stylish as white, but it signals a style and a dramatic expression that white cannot match. See for yourself.

SMALL & LIGHT

Gustavsberg's broad, functional range makes it simple for you to construct a bathroom on the basis of your personal taste and everyday requirements.

In a small bathroom, the pure and simple solution is often the most beautiful, too. High quality in each and every detail combined with peerless function makes an appreciable contribution to the wonderful overall experience.

THE SCANDINAVIAN DESIGN IDIOM IS TIMELESS. THE BEAUTY RESIDES IN THE PURE SHAPES, STRAIGHT LINES AND LIGHT NATURAL MATERIALS OF THE HIGHEST QUALITY. YOU CAN EVEN CHOOSE THE HANDLES YOU WANT FOR THE CABINETS AND DRAWERS.

WC, HYGIENIC FLUSH 5684 FOR WALL MOUNTING; SEAT WITH SOFT CLOSE/QUICK RELEASE.

TRIOMONT PNEUMATIC WALL-MOUNTED DUO FLUSH BUTTON IN WHITE GLASS.
ARTIC WASHBASIN CABINET 4860 IN NATURAL OAK WITH G192 HANDLE AND WASHBASIN 4551.
LOGIC WASHBASIN MIXER IN CLASSY CHROME.
ARTIC MIRROR 4880 60, WITH LIGHTING.
G1 PAPER HOLDER.
G1 TOWEL RAIL.

FLOOR TILES, CASAL MARTE THASSOS FROM KAKELDAXGRUPPEN.SE

HYGIENIC FLUSH

SMARTER FLUSHING FOR IMPROVED HYGIENE AND EASIER CLEANING. THE INNOVATIVE DESIGN WITH OPEN RIM AND SMOOTH SURFACES ELIMINATES ALL POTENTIAL DIRT TRAPS. HYGIENIC FLUSH MINIMISES THE NEED TO USE STRONG CLEANING AGENTS.

WC, HYGIENIC FLUSH 5684 FOR WALL MOUNTING; SEAT WITH SOFT CLOSE/QUICK RELEASE.
TRIOMONT PNEUMATIC WALL-MOUNTED DUO FLUSH BUTTON IN WHITE GLASS. ARTIC WASHBASIN
CABINET 4860 IN NATURAL OAK WITH G192 HANDLE AND WASHBASIN 4551. LOGIC WASHBASIN MIXER
IN CLASSY CHROME. ARTIC MIRROR 4880 60, WITH LIGHTING. G1 PAPER HOLDER. G1 TOWEL RAIL.
FLOOR TILES. CASAL MARTE THASSOS FROM KAKELDAXGRUPPEN.SE

SMARTER FLUSHING

Hygienic Flush makes it child's play to keep clean. Innovative design and function make the flush rim superfluous. The smooth surfaces make it easier to keep clean and improve the hygiene. And reduced need to use strong cleaning agents makes the environment a winner as well.

QUICK RELEASE

WITH QUICK-RELEASE FUNCTIONALITY, YOU CAN REMOVE THE WC SEAT FROM THE BOWL EASILY AND WITHOUT TOOLS. THE SEAT AND TOILET CAN THEN BE CLEANED SEPARATELY, WHICH IS BOTH SIMPLER AND MORE HYGIENIC.

SOFT CLOSE

HARD, SOLID TOILET SEATS HAVE PREVIOUSLY BEEN ASSOCIATED WITH LOUD NOISES WHEN THEY ARE LOWERED. SOFT CLOSE FUNCTIONALITY HAS SOLVED THIS PROBLEM THROUGH THE INTRODUCTION OF A DAMPER THAT IS BUILT INTO THE SEAT TO ENSURE THAT IT CAN BE LOWERED GENTLY AND QUIETLY. THE DAMPER HAS NO DIRECT CONTACT WITH THE PORCELAIN, WHICH FACILITATES CLEANING AND MAKES THE SEAT MORE HYGIENIC.

OPEN FLUSH RIM FOR EASIER CLEANING.

SCANDINAVIAN PURITY

The fastidious design is a consistent feature of every detail. The square washbasin features generous surfaces, while the two drawers in the washbasin cabinet can hold enough toiletries for an entire family. The mixer is a neat blend of form and function.

DISCREET FUNCTIONALITY. TWO INTENSIVE BUT WARM LIGHT SOURCES ABOVE THE MIRROR PROVIDE THE RIGHT LIGHT AND THE RIGHT EXPERIENCE IN THE RIGHT PLACE.

LITTLE & LUXURIOUS

Dark, elegant furniture units from our new Artic range, combined with beautiful, understated porcelain generate an exclusive hotel ambience. The mirror cabinet features a lighting rail above it, as well as concealed lighting below, which ramps up the intimacy level.

(The lighting below the washbasin cabinet is a special installation not included as standard in the product).

THE WC IS AVAILABLE IN BOTH FLOOR-MOUNTED AND WALL-MOUNTED MODELS AND COMES WITH A BLACK OR WHITE SEAT.

ARTIC WC 4300. ARTIC WASHBASIN CABINET 48100 IN BLACK OAK, FITTED WITH ARTIC WASHBASIN AND HANDLE F192 IN ANTHRACITE. COLORIC WASHBASIN MIXER IN SINFUL BLACK. ARTIC MIRROR CABINET 4888 10 IN BLACK OAK INCLUDING LIGHTING RACK. ARTIC 4870 IN BLACK OAK WITH HANDLE F192 I ANTHRACITE. SHOWER SET G2. COLORIC THERMOSTATIC SHOWER MIXER IN SINFUL BLACK. G1 TOWEL HOLDER. G1 TOILET ROLL HOLDER. TILES BY VILLEROY & BOCH, FIRE & ICE

THE WASHBASIN CABINET FEATURES GENEROUS STORAGE SPACE AND A WASHBASIN. THERE IS A CONCEALED ELECTRICAL SOCKET INSIDE THE MIRROR CABINET AND THE BOTTOM EDGE OF THE MIRROR DOOR IS FITTED WITH A BLASTED EDGE TO ELIMINATE THE PROBLEM OF FINGERPRINTS. THE INCLINED DESIGN OF THE COLORIC MIXER UNDERPINS THE DE LUX HOLISTIC IMPRESSION.

ARTIC WASHBASIN CABINET 48100 IN BLACK OAK FITTED WITH ARTIC WASHBASIN 4551 AND HANDLE F192 IN ANTHRACITE. COLORIC WASHBASIN MIXER IN SINFUL BLACK. G1 TOWEL HANGER.

THE DRAWERS IN THE ARTIC FURNITURE UNITS ASSURE GENEROUS STORAGE. SOFT CLOSE TECHNOLOGY ENSURES THAT DRAWERS AND DOORS SHUT SILENTLY.

THE COLORIC MIXER IS MADE OF RECYCLABLE ALUMINIUM AND COMES IN ONE OF FIVE EXPRESSIVE COLOURS.

THE FLOOR-MOUNTED VERSION OF THE ARTIC WC CAN BE INSTALLED VERY CLOSE TO THE WALL BUT STILL ALLOWS PLENTY OF SPACE FOR WALL-MOUNTED PIPEWORK.

LUXURY THROUGH AND THROUGH

A de luxe bathroom experience involves not only beauty, but also comfort and functionality. This is what we bore in mind when designing our new range of authentic Artic furniture. The units are available in a variety of sizes and finishes: Black Oak, Natural Oak and Matte White.

BLACK OAK

NATURAL OAK

MATTE WHITE

ARTIC TALL CABINET 4870 IN BLACK OAK WITH HANDLE F192 IN ANTHRACITE.

BOTH TASTEFUL AND FUNCTIONAL. EFFECTIVE STORAGE SOLUTIONS FREE UP FLOOR SPACE, WHICH IS PARTICULARLY IMPORTANT IN SMALL BATHROOMS.

LITTLE & LOGICAL

The Gustavsberg range features a wide variety of bathroom products designed specifically for small bathrooms.

The washbasin and the furniture shown here are extra slim to help make maximum use of the available space. The wall-mounted WC not only saves space, but is also simple to keep clean. Of course, both the quality and the finish are of the finest standard.

SINFUL BLACK

PERFECT WHITE

MOODY BLUE

CRAZY ORANGE

LOGIC, OUR VERSATILE BATHROOM RANGE, HELPS YOU TO MAKE THE MOST OF EVERY LAST CENTIMETRE IN YOUR BATHROOM. THE FURNITURE AND WASHBASIN ARE NEATLY AND PRACTICALLY DESIGNED.

LOGIC WASHBASIN CABINET 1860 FITTED WITH WASHBASIN. DRAWER FRONT IN MOODY BLUE AND HANDLE C. LOGIC WASHBASIN MIXER WITH MOODY BLUE LEVER. MIRROR 1835. LIGHTING RACK 1831. FLOOR TILES BY MARRAKECH DESIGN

LOGIC IS THE BATHROOM THAT CAN SWITCH IDENTITY. EXCHANGEABLE LEVERS FOR THE MIXER AND EXCHANGEABLE PANELS FOR THE CABINETS AND DRAWERS MAKE YOUR BATHROOM EVEN MORE PERSONAL. THE ONLY THING YOU HAVE TO DECIDE IS WHICH OF OUR MOOD COLOURS TO CHOOSE ... AND OF COURSE, IF YOU CHANGE YOUR MIND, YOU CAN SIMPLY CHOOSE A NEW ONE.

LOGIC WASHBASIN CABINET 1860 FITTED WITH WASHBASIN. DRAWER FRONT IN MOODY BLUE AND HANDLE C. LOGIC WASHBASIN MIXER WITH LEVER IN MOODY BLUE.

FLAT SURFACES AND SMART STORAGE

In addition to a generous drawer, the Logic washbasin cabinet also features a shelf to provide extra storage capacity.

With a water trap that has been specially designed for installation with our washbasin unit, you will have even more space for your things. The handle is available in three different models – choose the one that best suits your bathroom. The drawers and doors are prepared for installation of the handles, but not fully drilled.

Logic's slim washbasin has a surprisingly large flat surface in relation to its size, and the mixer is fitted with energy-saving functions to help you save money and protect the environment. In addition, it features an anti-bacterial, auto-repairing surface that prevents scratches forming.

THE LOGIC RANGE CONTAINS SMART WASHBASINS FOR SMALL BATHROOMS. WELL THOUGHT-OUT SHAPES AND SLIMMER DEPTHS MAKE THEM EASY TO FIT IN – EVEN THOUGH SPACE MAY BE AT A PREMIUM. SOME WASHBASINS CAN EVEN BE FITTED IN CORNERS. DESPITE THEIR SMALL DIMENSIONS, THEY STILL FEATURE PRACTICAL SURFACES.

SLIM CABINET MAKES ROOM

Small, cramped spaces need a bit of extra thought when it comes to interior design. Logic bathroom furniture is available in a variety of sizes and depths. This means that you can now make use of the small space behind the door that is usually ignored and forgotten. It is actually perfect for Logic's slim tall cabinet.

MEDIUM & TRENDY

Thanks to the broad Gustavsberg range, it is easy to create a completely individual bathroom. This "industrial-rural" example for a normal size bathroom includes furniture units, a bathtub and a shower. The products are drawn from different Gustavsberg ranges, and together, they create a unique and fascinating impression.

No matter how big or small your bathroom may be, a little extra floor space is always welcome. With our SQ solution, the shower walls can fold inwards when the shower is not in use, freeing up valuable floor space.

A tall cabinet that is just 16 cm deep is not in the way when you open the shower doors, but it still provides valuable storage space.

LOGIC WC-BOWL 5693 WITH BLACK SEAT. TRIOMONT PNEUMATIC WALL MOUNTED CONTROL PANEL IN WHITE GLASS.

SQ SHOWER CORNER WITH ROUNDED SWING DOORS AND CHROMED PROFILES. LOGIC THERMOSTATIC SHOWER MIXER WITH KNOBS IN PERFECT WHITE. SHOWER SET NAUTIC II.

BATHTUB 6316 IN SINFUL BLACK FITTED WITH CHROMED FEET AND CHROMED DRAIN PIPE. LOGIC THERMOSTATIC BATHTUB MIXER WITH KNOBS IN PERFECT WHITE. SKANDIC HAND SHOWER AND WALL MOUNTING.

SPECIFICATION OF BATHROOM FURNITURE ON NEXT PAGE.

TILES BY VILLEROY & BOCH. FLOOR; PRO ARCHITECHTURA. WALLS; CREATIVE SYSTEMS

LIVELY, TRENDY AND PRACTICAL. THAT IS THE RESULT WHEN YOU COMBINE TWO WASHBASIN CABINETS FROM OUR NEW LOGIC RANGE WITH A MIRROR CABINET AND WALL CABINET. SOFT CLOSE TECHNOLOGY ENSURES THAT DRAWERS AND DOORS SHUT SILENTLY.

LOGIC WASHBASIN CABINET 1892 FITTED WITH WASHBASIN, DOORS IN CLASSY WHITE AND HANDLE D. LOGIC WASHBASIN MIXER WITH LEVER IN PERFECT WHITE. LOGIC WASHBASIN CABINET 1862, DOORS IN CLASSY WHITE AND HANDLE D. TOP IN CAST CONCRETE ORDERED FROM CARPENTRY. LOGIC MIRROR CABINET 1882 60 FITTED WITH LIGHTNING RACK. LOGIC WALL CABINET 1810, DOORS IN CLASSY WHITE AND HANDLE D.

STRIKING CONTRASTS

Daring to move away from the classic white tub and choosing a black, claw-foot bathtub can create quite an impact. The lack of bathtub panels makes it easy to reach all areas when cleaning the room. The tub is also available with black or white feet.

BATHTUB 6316 IN SINFUL BLACK FITTED WITH CHROMED FEET AND CHROMED DRAIN PIPE. LOGIC THERMOSTATIC BATHTUB MIXER WITH KNOBS IN PERFECT WHITE. SKANDIC HAND SHOWER AND WALL MOUNTING.

NEAT & SMART STORAGE

Spacious drawers and cabinets make it easy to keep all the items in order. Clean, clinical surfaces make the bathroom a pleasure to use. The result is both neat and smart.

CLASSY WHITE

WOODY GREY

OUR ECO-SMART LOGIC MIXERS FEATURE A REPLACEABLE LEVER THAT IS AVAILABLE IN FIVE MOOD COLOURS.

MEDIUM & ECO-SMART

This beautiful example for a normal size bathroom is inspired by the concept of functionalism and conceals a variety of eco-smart solutions from our award-winning Nautic range. What do you say to a quiet, economy-flush WC, energy classed mixer and tilt-in shower walls, to name just a few examples ... As the name suggests, the functionalist movement centres on functional design, and Gustavsberg has added "ergonomic", "energy-saving" and "financially beneficial" to the concept. Simply put, an eco-smart bathroom.

THE ROTARY SPOUT ON THE BATHTUB MIXER IS AN EXAMPLE OF A SMALL BUT NEAT DETAIL THAT IMPROVES YOUR BATHROOM EXPERIENCE.

BATHTUB 1707 WITH FULL FRONT FRAME. NQ SHOWER CORNER WITH ROUNDED SLIDING DOORS AND PROFILES IN CHROME. NAUTIC THERMOSTATIC SHOWER MIXER. SHOWERSET NAUTIC II. NAUTIC MIRROR CABINET A402 60. NAUTIC TALL CABINET A673. NAUTIC WASHBASIN 5560 WITH PEDESTAL 2920. NAUTIC WASHBASIN MIXER. WALL TILES BY KAKELKOMPANIET: VOUGE OLIVA IN. FLOOR TILES BY STENFIRMA BROR TÖRNER; MARMOR VERDE ST.NICHOLAUS

THE CLEAN, CLINICAL LINES OF THE WASHBASIN COMBINED WITH ITS ROUNDED CORNERS AND ELLIPTICAL BASIN MAKE CLEANING EASY. THE ROUNDED SHAPE SAVES SPACE WHILE PROVIDING PLENTY OF SURFACE AREA. THE WASHBASIN PEDESTAL EFFECTIVELY CONCEALS THE DRAIN AND WATER TRAP.

NAUTIC WASHBASIN 5560 WITH PEDESTAL 2920.
NAUTIC WASHBASIN MIXER. 62 TOWEL HOLDER.

A HAND-SHOWER BY THE WC CAN BE USED AS A BIDET AND FACILITATES CLEANING.

WITH A NAUTIC MIXER, YOU LITERALLY DO NOT HAVE TO LIFT A FINGER TO SAVE BOTH ENERGY AND MONEY. SIMPLY RELEASE THE SINGLE LEVER AND IT WILL AUTOMATICALLY RETURN TO ITS ENERGY-EFFICIENT STARTING POINT.

OUR LIFT-OFF FUNCTION MAKES YOUR WC REALLY EASY TO CLEAN.

TO PROTECT IT AGAINST THE EFFECTS OF MOISTURE, THE ELECTRICAL SOCKET IS LOCATED INSIDE THE BATHROOM CABINET.

A GLASS SHOWER WALL RATHER THAN A SHOWER CURTAIN MAKES THE BATHROOM MORE ATTRACTIVE.

NAUTIC BATHTUB MIXER WITH ROTARY SPOUT. LB BATHTUB WALL.

NEAT, EASY TO MAINTAIN AND ECO-SMART

The bathroom shown here is both neat and easy to maintain. It also helps save a lot of energy – automatically. Let's start by talking about the quiet, economy-flush Nautic WC, whose pure lines with few offset sections and joints make it easy to reach all areas when cleaning. The separate inner tank keeps the flush quiet and prevents condensation building up on the exterior. The flush button is ergonomically designed so that even children and people with reduced muscle strength can easily use it. And then we come to our award-winning Nautic mixer, whose unique energy-saving properties make sure that you never use more or hotter hot water than you actually need. Briefly put, Nautic is the most functional and eco-smart bathroom range we have ever produced.

MEDIUM & MODERN

In normal size bathrooms, you have more space to work with. So it might be an idea to install storage cabinets that do not take up all the space in order to make room for a larger washbasin and washbasin cabinet. And how about having the furniture, mixer and bathtub in the same mood colour? Our trendy Crazy Orange shade is a big hit!

FOUR COLOURS THAT ALLOW YOU TO MATCH THE MIXER, BATHTUB AND FURNITURE.

THE MIXER AND FURNITURE IN OUR NEW LOGIC RANGE FEATURE EXCHANGEABLE MIXER LEVERS, HANDLES AND DOOR PANELS IN A VARIETY OF MOOD COLOURS, WHICH MEANS THAT YOU CAN EASILY CHANGE THE IDENTITY OF YOUR BATHROOM.

LOGIC WASHBASIN CABINET 1890 WITH WASHBASIN AND DRAWER IN CRAZY ORANGE WITH HANDLE C. LOGIC WASHBASIN MIXER WITH LEVER IN CRAZY ORANGE.

SWEET AND SMART

Behind its mood-colour exterior, the Logic thermostatic mixer hides a range of features to ensure you always have an even flow of water. Another special feature is the hose connector, which is designed as a change-over selector. Simply pull the hose up to switch between shower and bath. The Logic thermostatic mixer has the same unique surface treatment as the washbasin mixer.

LOGIC BATHTUB MIXER WITH CRAZY ORANGE HANDLE. SKANDIC SHOWER HEAD AND SHOWER FITTING.

THE MOOD MIXER

There is nothing at all apologetic about the Logic mood mixer. It is shown here in Crazy Orange, but the Logic mixer, furniture and bathtub panels are available in a range of different mood colours. Timid traditionalists have nothing to fear, however, as the mixer is supplied in Classy Chrome as standard. In addition to Gustavsberg's patented energy-saving functions, the coloured lever on the Logic mixer features an auto-repairing and anti-bacterial surface coating.

THE BATHTUB FRONT PANEL IS SIMPLE TO SLIDE UP TO FACILITATE CLEANING.

LARGE & STYLISH

Philips is one of the biggest domestic electronics manufacturers in the world. When they were on the point of launching their exclusive DiamondClean Black toothbrush in a completely black bathroom setting, they got in touch with Gustavsberg. Jon Eliason, the famous Swedish designer, was awarded the commission, and the result was this luxurious yet intimate setting. The black bathroom porcelain is now part of the Artic range and will be sold as a limited edition. To watch a film of the design process, go to www.gustavsberg.com/artic-black

THE MORE LIGHT SOURCES, THE BETTER.
REMEMBER THAT A BLACK ROOM WILL SWALLOW LIGHT.

LARGE & GLAMOROUS

For those who really want to maximise their bathroom experience, this solution may be an excellent option. Logic furniture units from Gustavsberg are both elegant and functional and provide plenty of storage space. With twin washbasin cabinets, two tall cabinets, three washbasins, a wall-mounted WC, built-in bathtub and free-standing shower, several people can use this large, glamorous bathroom at the same time.

THE WASHBASIN CABINET IN OUR NEW WOODY GREY COLOUR PROVIDES SMART AND STYLISH STORAGE. SEVERAL HANDLE MODELS ARE AVAILABLE.

CLASSY WHITE

WOODY GREY

TILED IN BATH 1380 WITH RIM-MOUNTED THERMOSTATIC SKANDIC MIXER. LOGIC TALL CABINET 1871 WITH DOORS IN WOODY GREY AND HANDLE E128. 1880 60 MIRROR WITH ELECTRICAL SOCKET. LARGE & LUXURIOUS

For those who like to think big, here is the best of the best – the crème de la crème, à la Gustavsberg. The bathroom shown here requires a relatively large space and costs a little more. However, it allows you to install both a bathtub and a shower, a double washbasin and all kinds of storage options. In addition, many people really appreciate a very spacious bathroom. Which also looks absolutely delightful. Wouldn't you agree?

NAUTIC CABINET A903 (60 CM) IN MATT GREY WITH BLACK DÉCOR PROFILES A672 60. NAUTIC TOP PANEL A664, MATT GREY (120 CM). NAUTIC MIRROR WITH LIGHTING A367 60, MATT GREY. ARTIC WASHBASIN 4551. COLORIC WASHBASIN MIXER, SINFUL BLACK. G2 TOWEL HANGER, HOOK. GLASS SHELF ORDERED FROM GLAZIERY.

BEFORE YOU START

1. Divide your bathroom into three functions: one for toilet visits, one for full-body care (i.e. baths and showers), and one for grooming – hands, teeth and face.
2. A large family may need a separate toilet. Is there some unutilised space in your home that would be suitable for a separate WC? A toilet in the same room can be separated off by installing a partition wall.
3. Do you want to fit a bath, a shower – or both – in your bathroom? The younger family members will probably monopolise the shower – so is there space to separate it off?
4. Base your ideas on the actual size of your bathroom and ask yourself: where can I change nappies? Where can I store the clean nappies? Do I need to make space for the washing machine and tumble dryer?
5. Remember the lights! Weak light – or excessively bright light – will make the bathroom environment dull and sad. A good rule of thumb is to have at least one light for “general lighting” and one directed light for “face work”. Include mirrors in your considerations; they reflect light and increase the sense of space in the room.
6. If the drain installations need to be moved, are the ones for the WC and washbasin to be installed in the wall or the floor? You can install wall-mounted porcelain even though the existing drain connections are in the floor.
7. Ventilation is important. Good ventilation – ideally combined with under-floor heating – helps the bathroom to dry quickly and reduces the risk of moisture damage.
8. The preparatory work beneath the floor and behind the walls – i.e. the work involving the pipes – is crucial in preventing moisture damage. We strongly recommend that you engage professionals for this work.
9. Light colours make the bathroom seem bigger. They also make dust, soap marks and water splashes less obvious.

THINK CAREFULLY IN ADVANCE
– YOUR BATHROOM IS TO LAST FOR YEARS

CONSULT A PROFESSIONAL IF YOU WANT TO REMODEL YOUR EXISTING BATHROOM OR BUILD A NEW BATHROOM FROM SCRATCH. IT IS BEST TO REACH AGREEMENT AT THE DRAWING BOARD STAGE.

THE BIG CHECKLIST

Your choice of products is crucial when you are creating a bathroom to thrive in for many years. Once you have the answers to all the questions and considerations in this list, all that remains to do is to start work on the renovation. A number of processes have to be carried out by professionals. Do not “chance it” yourself – it could cost you dear. Our product range documentation provides detailed information.

BATHTUBS

Big or small? Built-in or free-standing? Enamel or acrylic? In this catalogue you will find all kinds of standard bathtubs from Gustavsberg.

BIDET

Unfortunately, when bathrooms are renovated, the bidet is often the first thing to go. But there is nothing better for taking care of intimate hygiene. If you think that it would “steal” space, why not choose a washbasin mixer with a separate hand shower that you can then use while sitting on the toilet?

MIXER

A mixer should be nice to look at – but it is the inside that makes the real difference. So go for quality. At Gustavsberg, you will find energy and water-saving technology in even the most exquisitely designed mixers. Do you have young children? Then choose a thermostatic mixer that regulates the water temperature and eliminates the risk of scalding.

SHOWER

Make sure that the walls and floor of your shower area are made of materials that are suitable for wetroom environments. This determines whether you can use shower walls or need a shower cabin. Then there are a lot of options to consider. In small bathrooms, a shower corner with a door that also opens inwards is a good solution.

STORAGE

Shelves or cabinets? Cabinets keep the dust off and help you to avoid having to look at all the packages and other things you need close at hand. However, shelves provide greater accessibility and allow you to display the items you enjoy looking at. Whatever you choose, make sure to include a lot of storage space – even if your bathroom is small. For example, there is almost always room for a cabinet under the washbasin.

FUNCTIONAL ADAPTATION

It may be that you need to think about setting up your bathroom with an eye to the future – to the time when you may not be as

mobile as you once were. It is often the small details that make the bathroom much safer: a support rail by the bathtub and a non-slip surface on the bath-tub floor, for example. Or perhaps a support rail by the WC or a raised WC seat. An extended lever on a standard mixer or an sensor-controlled mixer will also make things easier for people with reduced hand strength. Our range contains numerous products that have been adapted for both children and adults with special needs. For more information about these products, visit www.gustavsberg.com

WASHBASIN

Installing two washbasins cuts down on queuing – and generates a sense of togetherness – for large families. Think about whether you want to conceal the water trap in a bottom cabinet or behind a pedestal or cover. If a standard size washbasin takes up too much space, there are smaller models and washbasins designed for corner installation to choose from. Our Logic range is designed precisely to free up space.

ACCESSORIES

Gustavsberg supplies a well thought-out selection of accessories. Always go for quality that lasts and design that you will enjoy for years and years. And make sure to seal all holes and cavities in bathroom walls thoroughly with silicone.

WC

Which model suits you best? Do you want the water trap concealed or visible? Do you prefer wall or floor-mounting? If your home is to have two toilets, why not choose different seat heights?

INSTALLATION

YOU CAN INSTALL MOST OF THE PRODUCTS YOURSELF. HOWEVER, THIS SYMBOL MEANS THAT WE RECOMMEND THAT YOU CONSULT A SKILLED PROFESSIONAL, SUCH AS A PLUMBER, A TILER OR AN ELECTRICIAN.

GET TO KNOW OUR RANGES

What you see on this page is just a small selection of the products that represent the different ranges. In addition to the broad assortment in our ranges, you will find bathtubs, shower cabins,

Gustavsberg Care and much more besides. These are products that do not belong to a specific range, but are designed to match them all.

NAUTIC:

Straight lines, right angles and a modern touch that blends seamlessly into a new environment or generates a powerful contrast in an older setting. The straight shapes also make the products easy to clean.

THE NAUTIC FURNITURE UNITS ARE SUPPLIED AS STANDARD WITH A WHITE DÉCOR PROFILE. DÉCOR PROFILES IN ALUMINIUM, BLACK OR RED ARE AVAILABLE AS OPTIONAL EXTRAS. AND THEY ARE SIMPLE TO SWAP. THE DÉCOR PROFILE COLOURS MATCH THE COLORIC MIXER COLOURS.

HOW SMART IS YOUR WC?

The Gustavsberg porcelain factory can trace its roots back to the 1600s, and we have been making WCs since 1939. In fact, for many people in Sweden, the word "toilet" or "WC" is synonymous with Gustavsberg. This is probably because we have been around for so long that we have quite simply become a natural part of people's everyday lives. Today, Gustavsberg is at the cutting edge interna-

tionally as regards water-saving solutions for WCs. We have added even more smart functions to our latest models to make your day-to-day life even easier. Without having a negative impact on the environment, of course. You could say that we have developed our WCs from smart to eco-smart.

ECO-SMART SOLUTIONS

All our WC models feature water-saving technology – smart eco-friendly solutions that will also benefit your wallet. With Ceramicplus surface treatment, the porcelain will be even easier to clean and the need to use strong cleaning agents will be appreciably reduced. Which is good news for the environment.

MANY OF OUR PRODUCTS ARE AVAILABLE WITH CERAMICPLUS (C+) SURFACE TREATMENT. THIS PROVIDES THE PORCELAIN WITH A DIRT-REPELLENT SURFACE THAT PREVENTS THE ACCUMULATION OF LIMESCALE AND DIRT. C+ IS ALSO GOOD FOR THE ENVIRONMENT, AS IT MEANS THAT YOU CAN USE A Milder DETERGENT – AND LESS OF IT! – WHEN CLEANING.

THE QUICK RELEASE FUNCTION MAKES IT SIMPLE TO REMOVE THE SEAT FROM THE WC WITHOUT USING TOOLS. THE SEAT AND TOILET CAN THEN BE CLEANED SEPARATELY, WHICH IS BOTH EASIER AND MORE HYGIENIC.

HARD, AUTHENTIC TOILET SEATS HAVE PREVIOUSLY BEEN ASSOCIATED WITH LOUD NOISES WHEN THEY ARE LOWERED. SOFT CLOSE FUNCTIONALITY HAS SOLVED THIS PROBLEM THROUGH THE INTRODUCTION OF A DAMPER BUILT INTO THE SEAT TO ENSURE THAT IT CAN BE LOWERED GENTLY AND QUIETLY. THE DAMPER DOES NOT MAKE DIRECT CONTACT WITH THE PORCELAIN, WHICH FACILITATES CLEANING AND MAKES THE SEAT MORE HYGIENIC.

SMARTER FLUSHING FOR IMPROVED HYGIENE AND EASIER CLEANING. THE INNOVATIVE DESIGN WITH OPEN RIM AND SMOOTH SURFACES ELIMINATES ALL POTENTIAL DIRT TRAPS. HYGIENIC FLUSH MINIMISES THE NEED TO USE STRONG CLEANING AGENTS.

YOU CAN INSTALL MOST OF THE PRODUCTS YOURSELF. HOWEVER, THIS SYMBOL MEANS THAT WE RECOMMEND THAT YOU CONSULT A SKILLED PROFESSIONAL, SUCH AS A PLUMBER, A TILER OR AN ELECTRICIAN.

INDEPENDENT CERTIFICATION

The Nordic Quality symbol is allocated to certified sanitation products in line with established requirements controlled by INSTA-CERT. These products meet set criteria for production, guarantee period, spare parts, documentation and technical suitability for installation in the Nordic region.

GOOD TO KNOW ...

- All Gustavsberg WCs and bidets are made of tightly vitrified sanitary porcelain – the most hygienic and durable material for bathroom fittings. This ensures a strong, durable surface. Year after year.
- We manufacture our WCs in line with stringent environmental requirements that cover the development of material and function, production, transport and delivery, for example.
- Our manufacturing process has been certified in accordance with the ISO 9000 standard.
- Both wall-mounted and floor-mounted models of WCs and bidets are available.
- Most of our WC models feature a double flush function which can help reduce water consumption by up to 50 per cent. However, a single flush involving more water may sometimes be necessary to rinse the pipes – if the drain pipes in your home are old, for example.
- Choose between several seat options. It is important to choose a seat that suits the WC model you have selected from the perspectives of both design and ergonomics.

IMPORTANT CONCEPTS

The following pages list various installation options that may need a little explanation:

Concealed S-trap: built-in drain pipe for floor-based connections. The drain connection is concealed but not built-in.

P-trap: also known as the “universal model”. Features a horizontal outflow pipe that allows great connection flexibility: floor connection, wall connection, right-hand side and left-hand side.

Wall mounting: If you decide to fit your WC or bidet to the wall, you must make sure that the fittings can handle the load. The Gustavsberg range includes thoroughly tested fixtures for fitting WCs and bidets to light walls. It is possible to install a wall-mounted WC in most cases, even though you may currently have a floor-mounted model. Take a look at our flexible, easy-to-install Triomont system elsewhere in this catalogue.

Glue fitting: Most often, WCs are bolted to the floor, but it is also possible to fix them in place with glue or wet room silicone. This is an excellent solution if you do not want to run the risk of the bolts puncturing underfloor heating pipes, for example. Always consult your dealer about the correct type of glue/silicone for your floor surface.

WHERE DO YOU WANT TO HANG YOUR WC?

Triomont is the smartest system on the market for wall-mounted WCs and washbasins, and it suits most bathrooms. Ugly pipes that attract dust and dirt are concealed behind a niche that also doubles as a practical shelf surface. You can decide the design of this niche yourself. For example, would you prefer glass or wood? Or even a fully tiled solution? The Gustavsberg Triomont system can be installed in corners and small spaces to maximise the floor

area of your bathroom and help you avoid costly remodelling. In addition, it is extremely easy to install. With Triomont, you can choose from a variety of high-quality WC models, washbasins, mixers and flush buttons from both Gustavsberg and Villeroy & Boch. That explains why Triomont is the smartest system for bathrooms on the market. So only one question remains: where do you want to hang your WC?

IT'S AS SIMPLE AS THAT

The Triomont fixture suits most bathrooms and helps avoid large and costly remodelling. All you actually need is a 14 cm recess, which is the floor space that the fixture requires. As such, it takes up no more space than a floor-mounted WC.

The pictures on these pages show what the neat but powerful Triomont fixture looks like at every stage from initial installation to final result. Neat, decorative and relatively simple.

You can install most of our products yourself, but we recommend that you call on a professional fitter to help you with WC fixtures as special regulations apply to wet room environments. If you want to do the work yourself, you should still consult a professional before you start. Contact your dealer, plumber or a DIY store.

You can also watch our instruction video online at www.gustavsberg.com.

FLUSH NEATLY. FLUSH SMARTLY.

You can choose between wall-mounted and top-mounted flush buttons, and there is even a pneumatic model. The push button you choose determines whether you can use single or dual-flush functionality.

1 Wall-mounted button

Mechanical or pneumatic push button for placing in a fixed position on the wall above the bowl.

2 Top-mounted button

Mechanical or pneumatic push button for placing in a fixed position on top of a half-wall.

3 Pneumatic flush button

Air-controlled single-flush button that you can position anywhere within 1.5 m of the fixture.

GOOD TO KNOW ABOUT TRIOMONT

Triomont is a simple and flexible system, both for the fitters and for the people who use the bathroom. The design and all the materials are of the highest quality. It meets the most stringent test requirements for load bearing: 400 kg. In other words, you need not worry about whether the construction will take your weight.

PUSH BUTTONS

Push buttons in a variety of models and materials make it easy for you to find a style that matches your taste and bathroom layout. There are push buttons for wall or top-mounting, and for single and double flush solutions. You can even choose between buttons for mechanical or pneumatic flushing. The pneumatic solution allows you to place the button anywhere you like near your WC – as long as it is no more than 1.5 metres away.

TOILET BOWLS

All WCs from Gustavsberg can be combined with the Triomont WC fixtures. The distance between the bolts for fixing the WC in place is 180 or 230 mm to accommodate different types. As Gustavsberg is a part of Villeroy & Boch, you can also choose from this company's range of WCs. If you set the distance between the bolts to 180 mm, you can use all WC models from Gustavsberg and Villeroy & Boch. There are models to suit everyone: children, tall people, short people, heavily built people, and people with special needs. There are large and small models. There are models for corner installations and small spaces. And all the models match the Triomont fixtures from Gustavsberg – of course.

WASHBASIN

The adjustable washbasin fixture can be used for all washbasins with a centre-to-centre bolt distance of up to 280 mm. The advantage of this solution is that it conceals all water and drain pipes.

WALLHUNG WC BIDETS AND WC WITH VISIBLE CISTERN

All wall hung bidets with bolt distance 180-230 mm, as well as our wall-hung toilet with visible cistern, fits with our wc/bidet fixture that provides a secure and neat installation.

YOU CAN ALSO CHOOSE TOILET BOWLS FROM VILLEROY & BOCH

Since 2000, Gustavsberg has been owned by Villeroy & Boch – one of the leading manufacturers of bathroom products in Europe. On the following pages, we present a selection of the Villeroy & Boch toilet bowls that can be used with the Triomont fixtures. The different models are intended for different areas of use. It may well be that you find one that matches your needs exactly. All Villeroy & Boch bowls are designed for mounting with a centre to centre distance between bolts of 180 mm.

To view even more toilet bowls or the entire range of Villeroy & Boch bathroom products, contact us or visit www.villeroy-boch.com.

Villeroy & Boch owns Gustavsberg, which gives you the opportunity to combine these two “bathroom worlds”. Simply put, you can choose the Triomont solution from Gustavsberg and then select a WC bowl from Villeroy & Boch. We are sure that you will find just what you are looking for.

VILLEROY & BOCH WC BOWLS

- All WC bowls can be combined with Triomont fixtures.
- All Villeroy & Boch WC bowls are for fitting with a centre to centre measurement of 180 mm.
- Broad range that covers many special needs.
- Load tested to 400 kg.
- Multiple seat options.
- C+ as an option for simple and eco-friendly cleaning.

”THERE IS A POSITIVE ATTITUDE TO ENVIRONMENTAL WORK HERE. WE CONSIDER IT ABSOLUTELY NATURAL”

GUNNAR LUNDMARK ENVIRONMENTAL MANAGER

In 1973, I started work in the laboratory here at Gustavsberg. I subsequently moved on to various parts of the production process until 1992, when I found myself in the environmental department.

We were one of the first companies to introduce our own purification plant at our factory, and today we wash down the factory floor with rainwater from our own reservoir. We also utilise the surplus heat from the furnaces, using it to heat the premises. Whereas we were previously up around the maximum level regarding zinc content in the porcelain glaze – 70 kg per year – we are now at the other end of the scale, with a level of 1.5 kg.

Our environmental work permeates all areas of our business, from our factory to our end customers, and has made us an international success. Our energy and water-saving WCs and mixers have become highly regarded exports to countries where water is in short supply, such as Singapore and Australia. It is often the case that environmental work goes hand in hand with good finances. Today, Gustavsberg is an environmentally certified company, and we operate with values that are far below the limit values stipulated by the EU. We are very proud of this.

REALLY SMART SOLUTIONS INCLUDE THE ENVIRONMENT

As a manufacturer of bathroom porcelain, mixers, bathtubs and showers, we at Gustavsberg have a major responsibility to ensure that our “alternative route” does not adversely affect the water. That is why it is really important for us to think carefully about how much water we use and about the impact we have on water quality. In recent decades, we at Gustavsberg have led the market in development and technology in the field of limiting water volumes.

We have now reduced the most economical flush in our WCs to a mere 2.4 litres of water,

without compromising on the efficiency. Compare this to the toilets from the 1960s and 1970s, which used 9 litres of water every time they were flushed.

Gustavsberg’s mixers are also fitted with smart technology designed to save water and energy. This not only helps you to save large amounts of water and energy every year, but also cuts your consumption costs appreciably.

WHICH WASHBASIN WILL YOU CHOOSE?

We are spending more and more time in our bathrooms, and the washbasin is perhaps the bathroom element we visit most times each day. It is here that we brush our teeth, wash our hands, rinse our mouths and so on. That is why it is important to choose a washbasin whose design makes the best possible use of the (often limited) space in the bathroom, and which can provide practical

flat surfaces. In addition, it should be easy to look after and aesthetically attractive. Gustavsberg supplies a wide range of washbasins to cover every need and taste imaginable. Here you can see examples from three of our ranges, which comprise a variety of different models and designs.

HIGH QUALITY AND A BROAD RANGE

A trait shared by all Gustavsberg washbasin models is the consistently high quality of the porcelain. A good washbasin should be simple to keep clean, stay looking fresh and last for years and years. The design is also important, of course. We supply a wide range of models in various sizes, so you are sure to find something to match your aesthetic preferences and the physical appearance of your bathroom. No matter whether you are looking for a small, large, luxurious or functional bathroom, Gustavsberg has a comprehensive selection of washbasins for you to choose from.

As the name suggests, a "sub-mounted" washbasin is fitted below the worktop, in which holes are cut for the basin and the associated mixer. Naturally, it is important to select a worktop that can withstand the effects of water.

SUITS ALL BATHROOMS

Many Gustavsberg washbasins are designed for recessing into associated furniture units – known as washbasin cabinets. The contrast with the furniture unit highlights the beauty of the porcelain. The Logic range has been produced especially for small bathrooms, with some washbasins designed specifically for corner installation. Our Nautic range has been designed to be extra-functional. The clean, neat lines and rounded edges of the porcelain units save space and facilitate cleaning. The angular shapes of the Artic range constitute washbasin art of the highest calibre.

LOGIC WASHBASIN

The Logic range features smart models for small bathrooms.

NAUTIC COVER

The stylish Nautic cover in porcelain neatly conceals the wall-connected drain and water trap. If you have a floor-connected drain, simply choose a porcelain pedestal instead.

STYLISH DETAILS

Stylish water traps, washbasin pedestals and covers beautify even the most obscure places in the bathroom.

WASHBASIN WITH WATER TRAP

Really small washbasins do not have room for a pedestal or bottom cabinet. For these, a neat water trap can be the perfect solution. Of course, a neat water trap will suit our larger washbasins, too. Models are available for both wall and floor connection.

INDEPENDENT CERTIFICATION

The Nordic Quality symbol is allocated to certified sanitation products in line with established requirements controlled by INSTA-CERT. These products meet set criteria for production, guarantee period, spare parts, documentation and technical suitability for installation in the Nordic region.

MANY OF OUR PRODUCTS ARE AVAILABLE WITH C+ SURFACE TREATMENT. THIS PROVIDES THE PORCELAIN WITH A DIRT-REPELLENT SURFACE THAT PREVENTS THE ACCUMULATION OF LIMESCALE AND DIRT. C+ IS ALSO GOOD FOR THE ENVIRONMENT. AS IT MEANS THAT YOU CAN USE A Milder DETERGENT – AND LESS OF IT! – WHEN CLEANING.

YOU CAN INSTALL MOST OF THE PRODUCTS YOURSELF. HOWEVER, THIS SYMBOL MEANS THAT WE RECOMMEND THAT YOU CONSULT A SKILLED PROFESSIONAL, SUCH AS A PLUMBER, A TILER OR AN ELECTRICIAN.

GOOD TO KNOW

- All our washbasins are made of closely vitrified sanitary porcelain – the most hygienic and durable material for bathroom fittings. This ensures a strong, durable surface. Year after year.
- We manufacture our washbasins in line with stringent environmental requirements that cover the development of material and function, production, transport and delivery, for example.
- Our manufacturing process has been certified in accordance with the ISO 9000 standard.
- Covers or pedestals to hide pipes and water traps are available as accessories for several ranges. You must always fit pedestals at the same time as the washbasin to ensure the neatest installation.
- Cabinets for fitting below washbasins provide valuable storage space in the bathroom without diminishing the floor space.

IMPORTANT CONCEPTS

The following pages present a variety of fitting options which may need a little more explanation:

To fit a washbasin on brackets, start by mounting the brackets on the wall and then hang the washbasin on them. With this solution, you can choose to leave space between the washbasin and the wall. To fit a washbasin with bolts, simply bolt the washbasin directly onto the wall. This method leaves no gap between the washbasin and the wall. Make sure that the wall has been sufficiently reinforced to accommodate the type of installation you choose.

Two installation options are available for washbasins for fitting in **bench tops**. “**Built-in**” basins are fitted from above in a bench top with an appropriate cut-out. “**For sub-mounting**” models are fitted below bench tops that have holes milled for the basin and mixer, (in cases when the washbasins comes without mixerhole)

NAUTIC WASHBASINS

- Easy-to-clean, minimalistic design in a range of sizes, 40–70 cm
- Elliptical basin with generous flat surfaces
- For bolt or bracket installation
- C+ as an option for simple and eco-friendly cleaning
- Mixer and bottom valve are not included, must be ordered separately. See mixer section.

HOW DO YOU FURNISH YOUR BATHROOM?

Bathrooms often tend to become cluttered up with all kinds of things. Towels, shampoo bottles, hair brushes, bath robes, make-up, toilet paper, toothpaste tubes, medicines ... everything piles up in a limited area. One effective way to deal with the chaos

is to make sure that you have plenty of storage space. Gustavsberg bathroom furniture is your key to a flexible and functional storage solution, presented with true finesse.

LOGIC BATHROOM FURNITURE
Woody Grey

FLEXIBLE FURNITURE WITH FINESSE

With a washbasin cabinet, a tall cabinet and a front-lit mirror cabinet, you will have plenty of space for all your bathroom items. Thanks to their flexible design, Logic furniture units suit both large and small bathrooms. Where there is plenty of space, it is a good idea to double up the washbasin units and tall cabinets. All Logic units feature white cabinet frames, but the doors and drawer fronts are available in a variety of colours and finishes.

EXCLUSIVE AND AUTHENTIC

New this year are the brilliant and elegant furniture units from the Artic range. The softly closing doors, neat, moveable modular sections and well thought-out mirror cabinets are designed to add a whole new dimension to your bathroom experience. The washbasin cabinet, tall and wall cabinets are available in Black Oak, Natural Oak and Matte White finishes. Our Artic furniture is sure to give your bathroom an authentic, exclusive atmosphere.

SMART AND TASTEFUL

Beautiful Gustavsberg porcelain recessed into a dark washbasin cabinet is more than just a treat for the eyes. The combination also provides plenty of surface space along with a smart storage solution.

THE ACOUSTICS IN A BATHROOM CAN RESULT IN LOUD, SUDDEN NOISES BEING PARTICULARLY IRRITATING. THE SOFT-CLOSE SYSTEM ENSURES THAT CABINET DOORS AND DRAWERS CLOSE SOFTLY AND SILENTLY.

YOU CAN INSTALL MOST OF THE PRODUCTS YOURSELF. HOWEVER, THIS SYMBOL MEANS THAT WE RECOMMEND THAT YOU CONSULT A SKILLED PROFESSIONAL, SUCH AS A PLUMBER, A TILER OR AN ELECTRICIAN.

GOOD TO KNOW ...

- You can combine furniture and bathroom porcelain any way you want to, but remember that washbasins with washbasin cabinets are always designed to fit each other. Make sure that the dimensions match when making your choice.
- You can choose between bottom cabinets with doors or drawers. Drawers provide a better overview of the contents.
- Several of our mirrors and mirror cabinets feature built-in lighting. Always have a qualified electrician install them for you.
- Make sure that your bathroom furniture is appropriately shielded from your shower. The furniture can withstand the humid environment of a bathroom, but is not designed to be splashed with water on a regular basis.

WHAT WASHBASIN MATCHES WHICH CABINET? THE ANSWERS ARE PRESENTED BELOW.

HANDLES

All handles suit all cabinets (apart from Nautic, which has décor profiles rather than handles). On the following product pages, we have chosen the handles we think best suit the respective cabinets, but you are free to mix and match according to your own taste and ideas. Here you can see all the handles you can choose between. The “c-c” measurement is the distance between the handle’s screw holes.

Modell A, c-c 220 mm, Classy Chrome

Modell B, c-c 32 mm, Classy Chrome

Modell C, c-c 200 mm, Classy Chrome

Modell D, c-c 64 mm, Classy Chrome

DÉCOR PROFILE

Nautic bathroom furniture units do not have handles – they are always delivered with white décor profiles instead. If you would prefer coloured profiles, you can choose between three different shades.

NB! Remember to order two profiles for each cabinet!

WAHSBASIN UNITS FOR FURNITURE COMBINATION

- The dimensions of full-cover washbasin units are adapted to match the range of furniture with the same name.
- Washbasins for building in or sub-mounting can be combined with a bottom cabinet and to top panel. Just make sure that the washbasin dimensions match the furniture unit.
- Some of the full-cover washbasins can be installed on brackets.
- Mixer and bottom valve are not included, must be ordered separately. See mixer section.

WHAT KIND OF BATH?

Few things in life can compare to slipping into a hot bath at the end of a long, hard day. The comforting and relaxing effect of a bath is hard to beat. Gustavsberg bathtubs are not divided into product ranges as they suit most bathroom environments – and as an added bonus this year, there are a number of fixed installation tubs to

choose from as well. Our bathtubs feature a pure, modern design and can be finished with a range of front panels, which makes it easy for you to create a variety of solutions. Our proud tub on simple feet looks best of all if you give it some space.

FIXED INSTALLATION OR MOUNTED ON FEET?

Gustavsberg supplies a variety of bathtubs. If you are interested in an exclusive look for your bathroom, our fixed installation tubs may be a good option. Or you could choose a tub mounted on feet – in white or black, with replaceable feet. We also have tubs with exchangeable front panels that are available in several great mood colours. If you tire of one colour, it's simply a matter of replacing the front panel.

WELL THOUGHT-OUT AND EASY TO MAINTAIN

All Gustavsberg bathtubs are easy to clean in all areas. A full-front bathtub conceals the drain connection but can be very difficult to clean. To deal with this problem, our neat model features a simple solution: you can slide the front panel up to access the underside.

BASIN MODELS FOR ENAMELLED BATHTUBS WITH FRONT PANEL FRAMES OR FEET

The **standard tubs 1300–1700** and the **frontless model 1571** have the most common basin. It has a depth of 420 mm, which means that it is comfortable and practical for both baths and showers.

Combi-tubs 1607–1707 are perfect for people who often use their bathtubs as a shower base. These tubs feature a flat area at the foot end, and the drain is located in the centre of the tub. The head end is rounded and comfortable. The tub is slightly shallower than our standard tub – 380 mm – making it easier to step into and out of it.

The **Duo-tub 1603** is for two people to bath together. It has two sloping head ends and a centred drain.

Sitting tub model 1051 is designed for people who have a really small bathroom but who cannot do without a bath. It measures just 1,050 x 650 mm.

The **frontless bathtubs 6316 and 6368** feature an oval basin with two sloping head ends and a centred drain.

YOU CAN ORDER BATHTUBS WITH SPECIAL SUPPORT HANDLES ON THE RIM TO IMPROVE SAFETY AND EASE OF USE.

BATHTUBS ARE AVAILABLE WITH AN ANTI-SLIP TREATMENT WHERE QUARTZ SAND HAS BEEN BURNED INTO THE ENAMEL IN AN AESTHETICALLY NEUTRAL PATTERN. THE SURFACE COUNTERACTS THE RISK OF SLIPPING WHEN ENTERING OR LEAVING THE BATHTUB. MOREOVER, IT IS LOCATED AT THE FOOT END OF THE TUB SO THAT IT DOES NOT AFFECT THE OVERALL BATHING EXPERIENCE.

BASIN MODELS FOR ENAMELLED BATHTUBS FOR TILING IN

Fixed installation bathtubs 3400, 3500, 3600, 3970 These models feature the most common basin with a head and foot end. This basin model is comfortable and practical for both baths and showers and is available in several sizes.

Fixed installation bathtubs 1220, 1380 Designed for two people to bath together; features two sloping head ends and a centred drain. The basin has an attractive ellipse shape.

Fixed installation bathtubs 3310, 3311 Perfect for people who often use their bathtubs as a shower base. The tub features a straight, almost fastidious design, along with a generous flat area in the foot end for showering and a centred drain. The head end is sloped for a very comfortable bath.

Fixed installation bathtubs 6830, 6831 Ideal for people who have plenty of space and appreciate tight design. Perfect for two people to bath together; features two sloping head ends and a centred drain.

Fixed installation bathtubs 2570 and 2580 These models are intended for bathrooms where space is limited. With its bevelled foot end, you can always find room for this bathtub – even in small bathrooms.

OUR BATHTUBS ARE AVAILABLE WITH AN EXTRA SURFACE TREATMENT – GLAZEPLUS – WHICH IS A CRYSTAL-CLEAR POLYMER FILM THAT PROTECTS THE SURFACE OF THE BATHTUB AGAINST DIRT AND LIMESCALE DEPOSITS. THIS FACILITATES CLEANING AND REDUCES THE AMOUNT OF DETERGENT YOU NEED TO USE.

GOOD TO KNOW ...

- Gustavsberg supplies bathtubs in all shapes and sizes – most intended for installation with full or half-depth panel stands. We also supply frontless bathtubs and tubs for tiling in.
- Our tubs are made of enamelled steel sheet, which is a tough and durable material.
- The bathtubs are easy to install and simple to clean. The front panels on our full-front tubs can be lifted up to make cleaning easier. Half-front panels on the other hand, always allow full access to the floor for cleaning.
- The side and base panels can be pushed sideways from the stand to make room for wall-mounted pipe work.
- The legs of this stand are located in the corners, making it almost impossible to tip our bathtubs over. The feet are adjustable, so the tub will always stand securely – even on a sloping floor surface.
- Our range also includes acrylic whirlpool bathtubs, which you can see on page 126.

BATHTUBS IN ENAMELLED SHEET STEEL WITH FULL- OR HALF-FRONT PANEL

- Enamelled sheet steel
- Complete with front panel frame, fitted bottom valve and drain pipe
- The front panel frame can be slid sideways and back, allowing room to route pipes along the walls
- Adjustable feet, 25 mm
- Full front panel features a slidable lower section to facilitate cleaning
- Handles and anti-slip bottom surface
- Glazeplus as an option for simple and eco-friendly cleaning
- Front panel frame in different colours on several models

WHICH SHOWER SUITS YOUR BATHROOM?

Gustavsberg's showers maintain the highest standards of quality as regards both design and function, and they are available in a range of combinations to suit bathrooms of all types. However, before choosing the model you want, you should take some time to think about the conditions in your bathroom. For a shower corner, you need water-tight walls, a water-tight floor and a floor drain in the corner where you wish to install the shower. All Gustavsberg

wall and floor profiles are adjustable so you can be sure of a level shower even if the walls are angled and the floor slopes. A shower cabin is a versatile solution, especially if the floor in your bathroom cannot withstand the effects of water. The shower cabin itself functions as a water-tight space and requires only a minimum of work to install. A spare corner, connection to a water supply and a drain are all you need.

SHOWER WALLS AND CORNERS WITH SWING DOORS

BUILT-IN ELEVATING HINGES LIFT OUR SLIDING DOORS 5 MM. A BACKFLOW GUARD IS SUPPLIED FOR FITTING IF THE INCLINE TO THE FLOOR DRAIN IS NOT QUITE SUFFICIENT.

SHOWER CORNER WITH ROUNDED OR STRAIGHT SIDE-HUNG DOORS. THE DOORS OPEN BOTH INWARDS AND OUTWARDS – WHICH CAN SAVE VALUABLE SPACE IN A SMALL BATHROOM AVAILABLE IN SEVERAL SIZES.

SHOWER CABINS WITH ROUNDED SLIDING DOORS

Shower cabins are the best solution for rooms with walls and floors that may not be fully water-tight. Shower cabins are actually enclosed, water-tight units. All you need is a spare square metre and access to hot and cold water and a drain. This cabin comes with a built-in mixer and shower set. Choose between white or chromed profiles. Also available with straight doors.

NACQ 900 x 900 mm

SHOWER CABIN WITH STRAIGHT SLIDING DOORS

This model comes with a shower set, but needs to be completed with a shower mixer. Choose between white or chromed profiles.

NCC 800 x 800 mm

SHOWER CORNERS WITH SLIDING DOORS

SHOWER CORNER WITH ROUNDED SLIDING DOORS. CHOOSE BETWEEN CHROMED OR WHITE PROFILES. AVAILABLE IN MANY SIZES – ALSO WITH STRAIGHT DOORS.

TILT-IN AND ADJUSTABLE FLOOR PROFILE WITH "RUN-OFF HOLES" IN SLIDING DOORS.

HOLES FOR EXTERNAL PIPES IN EXTRA-WIDTH PROFILE ON SLIDING DOORS.

SHOWER WALL WITH STRAIGHT DOORS AND WHITE PROFILES.

NC 900 x 900 mm

SHOWER WALLS ARE CONSTANTLY SUBJECTED TO WATER, SOAP, OILS, SHAMPOO AND LIMESCALE. FOR THIS REASON, ALL GUSTAVSBERG SHOWERS ARE FITTED WITH "CLEAR GLASS" – A PROTECTIVE EXTERIOR LAYER THAT FACILITATES CLEANING AND HELPS REDUCE THE AMOUNT OF DETERGENT YOU NEED TO USE.

THE BOTTOM EDGE OF SHOWER CORNERS, WHERE THE DOOR MEETS THE FLOOR PROFILE, IS USUALLY VERY DIFFICULT TO KEEP CLEAN. OUR "TILT-IN" FUNCTION MAKES IT SIMPLE FOR YOU TO REMOVE THE SHOWER DOORS FROM THE FLOOR PROFILE FOR MORE EFFICIENT CLEANING AND IMPROVED HYGIENE.

THE ELEVATING HINGE IS A SMART DETAIL THAT LIFTS THE SHOWER DOOR 5 MM EVERY TIME YOU OPEN AND CLOSE IT. THIS MINIMISES WEAR ON BOTH THE FLOOR AND THE SHOWER DOORS. A PRACTICAL FUNCTION THAT PROVIDES A SENSE OF AUTHENTIC LUXURY.

INDEPENDENT CERTIFICATION

The Nordic Quality symbol is allocated to certified sanitation products in line with established requirements controlled by INSTA-CERT. These products meet set criteria for production, guarantee period, spare parts, documentation and technical suitability for installation in the Nordic region.

GOOD TO KNOW ...

- Safety requirements are strict, and we test our products in accordance with CE norms for safety, function, tightness and durability.
- Our most popular model is the shower wall, which is usually fitted directly to a water-resistant floor that slopes gently down to a drain outlet.
- In order to be able to fit a shower cabin without any problems, your bathroom ceiling height should be at least 250 cm.

- When measuring the size of unequal-sided shower walls (e.g. 100 x 80), tape a corner on the floor and measure from left to right. This helps ensure that you measure correctly.

SLIDING DOORS FOR CORNER INSTALLATION

- Tempered safety glass
- Clear glass for simple, eco-friendly cleaning
- White or chromed profiles
- Pivot-in function for easy cleaning
- The 25 mm adjustable wall profile ensures a level shower even if the walls are angled.
- Pipe routing possible can be concealed in the wall profile
- Adjustable floor profile to ensure a level shower even if the floor slopes.
- Drainage holes in the floor profile convert the floor drain in the shower into an evacuation drain
- Widening profile, 40–65 mm as an optional extra. It is possible to connect multiple profiles.
- On the NC model, it is possible to work with unequal-sided measurement combinations

WHAT ACCESSORIES DO YOU NEED?

Gustavsberg supplies two ranges of easy-to-fit accessories. They match our products perfectly and make it simple for you to compose a complete bathroom – without having to compromise on quality, function or design. All the accessories withstand moisture

and feature the high quality you can expect of Gustavsberg. The design idiom is pure and understated, with details in chromed brass and with a surface finish that gives your entire bathroom a little lift.

BATHROOM ACCESSORIES G1

Bathroom accessories that match our products perfectly. High quality in chromed brass with a perfect surface finish. G1 is distinguished by straight lines and right angles that provide an immediate sense of sober, restrained elegance.

G1-3824 HOOK

G1-3827 TOILET ROLL HOLDER

G1-3830 TOILET BRUSH

G1 FAST TAKDUSCH

BATHROOM ACCESSORIES G2

Bathroom accessories that match our products perfectly. High quality in chromed brass with a perfect surface finish. In the G2 range, the straight lines are accompanied by a number of more rounded shapes. Round rails, jars and holders often appear warmer and more accommodating in an intimate setting. The design is still simple and cultured, but a little more playful. Modern, without appearing too strict and stringent.

G2 FIXED CEILING-MOUNTED SHOWER
A corresponding item is also available in the G1 range.

G2-3850 TOILET BRUSH

G2-3844 HOOK

G2-3847 PAPPERSHÅLLARE

GOOD TO KNOW

- Make sure not to damage the sealant layer in your bathroom. If you drill any holes, make sure to seal them tightly.
- Ask your reseller or fitter for advice on the basis of the materials in your bathroom walls and how and where you intend to position the accessories.

DO YOU SAVE ENERGY WHILE BRUSHING YOUR TEETH?

Gustavsberg is at the cutting edge worldwide when it comes to mixers. Design, materials and the underlying technology are all second to none. With a mixer from Gustavsberg, you receive not only a product that will keep on working perfectly year after year, but also a fitting that helps you save energy and money every time you use it.

The reason for this is that, thanks to its genius design, the mixer ensures that you never use more or hotter water than you need. Over the years, Gustavsberg's patented energy-saving solutions have won numerous prestigious international awards and prizes – and we are still working to make them even more efficient.

INDEPENDENT CERTIFICATION

The Nordic Quality symbol is allocated to certified sanitation products in line with established requirements controlled by INSTA-CERT. These products meet set criteria for production, guarantee period, spare parts, documentation and technical suitability for installation in the Nordic region.

ENERGY-SAVING

A REVOLUTIONARY ENERGY-SAVING FUNCTION THAT CAN HELP REDUCE YOUR ENERGY CONSUMPTION BY 50%. THE SIMPLE SOLUTION IS BASED ON THE FACT THAT YOU HAVE TO MOVE THE LEVER ACTIVELY ALL THE WAY TO THE LEFT TO REACH THE MAXIMUM WATER TEMPERATURE. WHEN YOU RELEASE THE LEVER, IT AUTOMATICALLY RETURNS TO THE PRESET COMFORT TEMPERATURE, APPROX. 38–40 °C. THE COMFORT TEMPERATURE IS FULLY ADJUSTABLE TO MATCH INDIVIDUAL PREFERENCES.

WATER-SAVING

THIS MIXER HELPS YOU AVOID USING MORE WATER THAN NECESSARY. THE STARTING POSITION PROVIDES A PRESET COMFORT FLOW, WHICH IS SUFFICIENT FOR WASHING UP OR WASHING YOUR HANDS. FOR EXAMPLE, TO OPEN THE FULL FLOW, YOU NEED TO LIFT THE LEVER TO ITS HIGHEST POSITION. WHEN YOU RELEASE THE LEVER, IT AUTOMATICALLY RETURNS TO THE COMFORT FLOW POSITION. THE FLOW FUNCTION IS FULLY ADJUSTABLE TO SUIT INDIVIDUAL PREFERENCES.

ECO-START

AN ENERGY-ECONOMICAL MIXER THAT STARTS AUTOMATICALLY AT A TEMPERATURE OF 17 °C FROM ITS STARTING POSITION (LEVER STRAIGHT AHEAD), HELPING YOU SAVE BOTH ENERGY AND MONEY.

SENSOR-CONTROLLED MIXER

THE SMART SENSOR TECHNOLOGY AUTOMATICALLY HELPS YOU TO SAVE ENERGY AND AVOID WASTING WATER. THE MIXER TURNS ON WHEN YOU PLACE YOUR HANDS IN THE APPROPRIATE POSITION, AND SHUTS OFF AGAIN AS SOON AS YOU REMOVE THEM. DURING CLEANING, COVER THE SENSOR EYE TO DISABLE THE MIXER TEMPORARILY. POWERED BY A STANDARD BATTERY OR TRANSFORMER.

EVEN PRESSURE & TEMPERATURE

THERMOSTATIC MIXERS FEATURE BUILT-IN AUTOMATIC SCALD PROTECTION AND HOT-WATER SAFETY STOP WITH TYPE-APPROVED NON-RETURN VALVES. THIS MEANS THAT THE MIXERS REACT QUICKLY TO THE CHANGES IN TEMPERATURE AND PRESSURE THAT CAN ARISE IN THE WATER FLOW, AND EVEN OUT THE DIFFERENCES.

ANTI-BACTERIAL COLOUR

THE MIXER'S ANTI-BACTERIAL SURFACE TREATMENT ON ALL PAINTED LEVERS AND HANDLES COUNTERACTS THE SPREAD OF BACTERIA (SUCH AS PNEUMOCOCCI AND MULTI-RESISTANT BACTERIA), VIRUSES AND FUNGI, FOR EXAMPLE. THE SURFACE TREATMENT HAS A LONG-TERM EFFECT, PROVEN TO LAST FOR AT LEAST FIVE YEARS.

AUTO-REPAIR COLOURS

THE MIXER FEATURES UNIQUE AUTO-REPAIR PROPERTIES. IN PRACTICE, THIS MEANS THAT MINOR SCRATCHES WHICH APPEAR ON PAINTED LEVERS AND HANDLES IN THE LOGIC RANGE QUITE SIMPLY DISAPPEAR ON THEIR OWN. THE PAINTED SURFACE TREATMENT MAKES THE MIXER MORE DURABLE AND REDUCES THE RISK OF BACTERIA SPREADING.

WE NEVER BOAST. WE'D RATHER TELL YOU THE FACTS.

Our energy-saving washbasin mixers from the Nautic and Logic ranges were awarded the highest possible marks in the stringent efficiency tests developed by SIS TK 519 and Kiwa. The secret of our success is our unique heat and flow functions that result in the mixer immediately returning to its energy-saving comfort position as soon as you release the lever. In this way, it helps you to save incredible amounts of energy, water and even money – automatically. If you want hotter water or to increase the flow, simply move the mixer lever to its outermost position. Nautic and Logic models can also be individually customised, which is yet another feature that makes Gustavsberg mixers stand out from the competition. However, as we say, we never boast. We'd rather tell you the facts.

GUSTAVSBERG'S ENERGY-SAVING NAUTIC AND LOGIC MIXERS WERE AWARDED THE HIGHEST POSSIBLE MARKS WHEN SIS TK 519 AND KIWA TESTED THE ENERGY EFFICIENCY OF A VARIETY OF MIXERS.

GOOD TO KNOW ...

- As standard, all our kitchen and washbasin mixers feature our patented water-saving technology that saves thousands of litres of water every year. And money, too.
- You can adjust or even deactivate all the energy and water-saving functions in our mixers to suit your individual needs.
- All the components are made of food approved materials.
- All our mixers are recyclable. Moreover, they are largely made of recycled metal. When new mixers are installed, 95% of the old ones are recycled. The brass is made into new "raw material" that the brass factory uses to make rods and bars which go into the production of mixers.
- Simple instructions make it easy for you to set up and use your mixer. For example, you can adjust the scald protection quickly and easily without any specialist tools.
- All single-lever mixers feature ceramic seals. These are tested for at least 450,000 pin movements, which is the equivalent of around 20 years of normal use.
- Kitchen mixers are available with shut-offs for dishwashers and washing machines. One of the requirements for the new installation of kitchen mixers is that the water cut-off be located above the worktop. A practical solution is therefore to integrate this cut-off into the mixer.
- Many stainless worktops are so thin that a kitchen mixer with a high spout may feel a little unstable. Therefore, we recommend fitting our mixers on worktops made of thicker material, or in the worktop itself. However, our range does include a stay to keep the mixer stable on thin worktops, too.
- Self-draining outdoor taps are a smart solution. When you turn them off, they automatically drain the water from the pipes in the wall. This eliminates the risk of costly water damage.
- Many of our washbasin mixers are available with a practical side shower for installing on the wall. The shower matches all washbasins, and if you position it close to a toilet, it makes an excellent substitute for a bidet.

IMPORTANT CONCEPTS

The following pages present a number of technical terms that may need a little explanation:

Water connections refers to the pipes that are connected to the water supply. Our mixers have flexible water connections, which are approved for the Nordic market and facilitate installation.

c-c is a measurement ("centre-centre") that refers to the distance between your incoming supply pipes for hot and cold water.

"Change-over" selectors are a feature of bathtub mixers and determine whether the water comes out of the bath spout or the shower head.

WANT TO PEEL POTATOES IN A MORE ECO-FRIENDLY WAY?

A lot of water is used in the kitchen. Far too much, in fact. Leaving the water running may not sound all that dangerous, but we harm the environment when we use more energy than we need. In addition, we pour money down the drain. Literally. Gustavsberg's

kitchen mixers automatically help to ensure that you never use more hot water than you need. In practice, this means that you can save both energy and money, even if you insist on peeling potatoes under running water.

NAUTIC KITCHEN MIXER

Our elegant Nautic mixer is environmentally certified and features functions designed to save both energy and water. It starts at a temperature of 30 °C (lever straight), which is often sufficient. On account of the built-in energy- and water-saving functions, you must actively move the lever up or to the side to increase the temperature or the flow. When you release the lever, it automatically returns to its original energy-saving position. You can adjust or even deactivate all the energy and water-saving functions in our mixers to suit your individual needs.

Nautic mixers are available with low or high spouts. In fact, there are two different versions of the high-spout model.

LOGIC KITCHEN MIXER

Our Logic mood mixer is packed with smart features, both inside and out. It is also the first mixer that can change its identity thanks to exchangeable levers in a variety of colours. The painted levers have been given an anti-bacterial, auto-repairing surface that prevents scratches. This is particularly beneficial in kitchens, where you work with foods. In addition, the Logic mixer contains the same water and energy-saving functions as the Nautic models.

BATHROOM PORCELAIN FROM VILLEROY & BOCH

Since 2001 Gustavsberg is a wholly owned part of Villeroy & Boch. Today, we can supply their complete range of exclusive bathroom products. If you would like to find out more, get in touch and we will send you a catalogue of the comprehensive product range.

WHERE TO BUY GUSTAVSBERG PRODUCTS

You can find Gustavsberg products in most well-stocked bathroom shops, plumbing outlets and DIY stores.

Visit our website at www.gustavsberg.se to locate your nearest dealer in Sweden. Click the "Where to buy" button in the top right-hand corner and enter your post

code or location in the relevant field. The information will then be provided quickly, with a map and directions. If you have any other questions about dealers or products, you are welcome to e-mail us at info@gustavsberg.se or call our customer service department on +46 8 570 391 00.

The screenshot shows the Gustavsberg website interface. At the top right, there is a search bar with the text "Hitta återförsäljare | Välj land" and a "Search" button. Below the search bar is a navigation menu with links for "BADRUM - PRODUKTER", "INSPIRATION & PLANERING", "SUPPORT", "OM GUSTAVSBERG", and "KONTAKTA OSS". The main content area is titled "HITTA ÅTERFÖRSÄLJARE" and contains a search form with fields for "Postnummer eller ort" and "Sök på namn", a "Fortsätt" button, and a section for "DINA SÖKRESULTAT" showing a list of dealers and a map of the Stockholm region.
