Vatteninstallation.

Assembling & Care

Floor mounting with included bracket and two screws. Floor mounting with glue. Caps for screws and white plugs for screw holes for gluing included. The rounded cistern and the small outer dimensions makes it suitable for corner installations. The P-trap makes it possible to connect the waste pipe to the floor, straight against the wall, or to the side at any angle (must be less than 90 degrees). Please refer to the installation manual. Fittings included.
