- Complies with Safe Water installation requirements
- CE approved

Assembling & Care

Drop-in installation in countertop with cut-out hole. Bathroom sink should be used as a template to plot hole on countertop. Turn the bathroom sink upside down, draw its outline on the slab and saw 25 mm inside the line. Apply a bead of bathroom caulk around the hole and drop the sink into the countertop. No mounting with screws needed. The rear edge of the basin is level but unglazed, intended to be installed against wall. Mounting instructions included.
